It all began because my parents said I could bring my pet turtles from New Jersey to our new home outside Chicago in 1982. They knew I was not too excited to leave my lakefront home for the cornfields of Illinois. As a 12 year old nature freak I loved everything about researching and building my own pond to hold them. However, that first pond leaked, turned green, and even my prize turtles migrated away! So began my odyssey with man-made water features. Undaunted, I began designing and experimenting with different filters and pump designs along with construction techniques that replicated what Mother Nature did naturally. The result was what became

the Aquascape Ecosystem approach to water feature construction. Combining technology with natural design principles to work with Mother Nature and not against her, you can now create beautiful, low maintenance, water features that can fit naturally into any landscape setting.

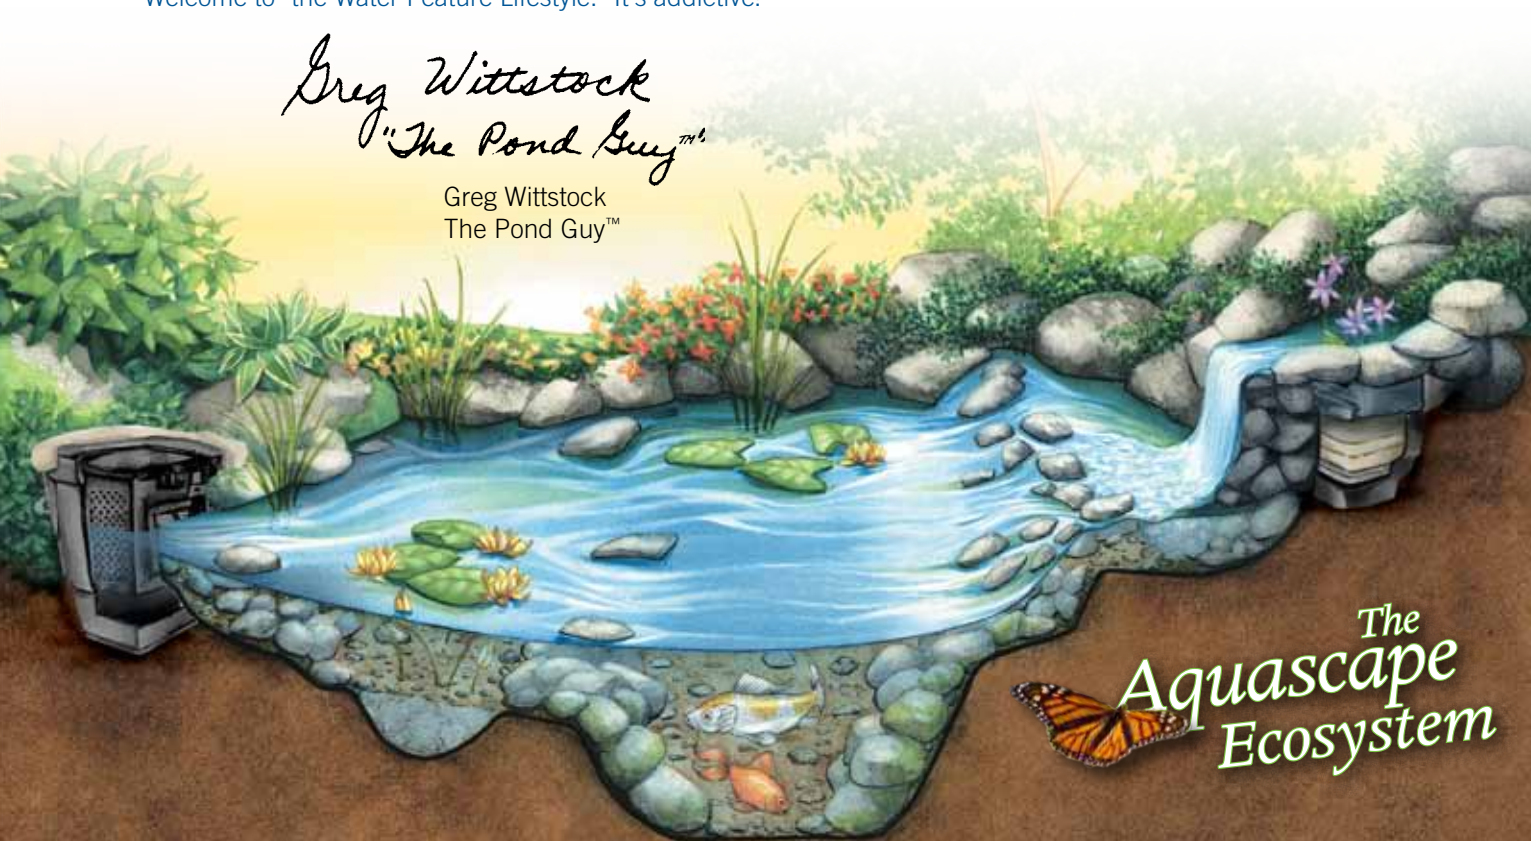

32 years after falling in love with man-made water features, Aquascape is the largest, most passionate, company in the world supplying professionals and hobbyists alike with water feature products. Today, we have developed so many products and solutions to make water features so much more enjoyable and cost effective. From [LED lights \(page 48\)](#) that transform any water feature into a nighttime oasis, [energy efficient pumps \(page 34\)](#) with cool remote control capability, to even products that utilize cutting edge technology like the [IonGen™ \(page 26\)](#) that controls string algae. Whether you are installing or maintaining a full blown [Aquascape Ecosystem Pond \(page 11-13\)](#) or simply adding a [Patio Pond \(page 74-75\)](#) with some fish and plants you will find it in this catalog and on our website www.aquascapeinc.com along with a list of Certified Aquascape Contractors and retailers to assist you.

Your Paradise, Our Passion is our mantra. In today's fast paced, electronically dependent world we believe now more than ever people need a natural diversion. Nothing you can do in your yard will allow you to achieve that more than a decorative water feature. And, nobody cares more about helping you create that escape place at home than Aquascape.

Welcome to "the Water Feature Lifestyle." It's addictive!

4 Living the Water Feature Lifestyle

Living the Water Feature Lifestyle

Today more than ever, time is a coveted possession. At Aquascape, our passion is helping people transform their yards and subsequently how they spend their time. When you own a water feature you transform a house into a home. You create an escape from the stress of the world right where you live. How important is that in today's world?! We have dubbed this trend "Living The Water Feature Lifestyle." The Water Feature Lifestyle is what you experience owning and living with a water feature. It's how you interact with it but even more descriptively, it's how it interacts with you! When you live with a water garden, a waterfall, or even a decorative fountainscape you will be seduced outside, away from the T.V., the computer, the rat-race. People simply don't sit in their yards for hours on end watching their flowers grow. When you're feeding the fish, watching the birds splash in your waterfall or simply gazing hypnotically and listening to the beautiful sounds of a babbling brook, you're experiencing "The Water Feature Lifestyle" right where you live ... at home! From this catalog to our website, www.aquascapeinc.com, to our YouTube videos (www.youtube.com/Aquascape4), you can learn about and decide what feature is best for your property, lifestyle, and budget. *Your Paradise, Our Passion®!*

Video on
The Lifestyle

Who We Are

The best way for us to answer who we are, is to ask who you are? Are you someone who works hard, or worked hard, for your money? Do you like to relax? Get your hands dirty? Love fish? Love nature? Love the outdoors? Do you like to entertain? At Aquascape we are all about “Living the Water Feature Lifestyle,” which encapsulates all those things PLUS so much more! Living the Water Feature Lifestyle is about having

an escape at home. A place that beckons you outdoors where the stress melts away. It’s about creating a feature that draws your eyes to it that sets a mood, all while making a statement.

Throughout the pages of this catalog you can see who we are by seeing how we live with the water features we own. What we aren’t, is like any other manufacturer of water feature products in the world. We are hobbyists who are passionate about

the products we produce, because as you will see, we live with them ourselves. We have many unique products, designs, and features that we’ve created to expand the enjoyment, improve the performance, or reduce the cost of owning a water feature. For you, that means “Living the Water Feature Lifestyle” should be more enjoyable, simpler, and more economical than ever with Aquascape. “Your Paradise, Our Passion.”

Truly a Workplace Utopia

In less than 15 years, Aquascape has morphed from a tiny basement and garage to a 256,000 square foot state-of-the-art green office building. Aqualand started as The Pond Guy's™ pie-in-the-sky dream and is now the pride and joy of employees and customers alike.

Aqualand is truly a workplace utopia and the embodiment of Aquascape spirit and culture - building a balance in life that stimulates the mind, challenges the body, and nurtures the spirit.

The Culture of Building a Balance

Culture is a way of living that is most often associated with artistic and intellectual pursuits. It can be found in a variety of socio-environments: family, religion, education, sports teams, business, and more. When used in business, culture becomes a powerful tool that can set a company apart from its competitors. Aquascape, Inc. has created an entrepreneurial culture that is creative, fun, healthy, innovative, competitive, dynamic, and fast-paced. Aquascape is the industry leader in all things water gardening; from pond kits to seminars, special events to marketing materials, fish food to books, water treatments to fountains, and more. Due to the rapid growth of the water garden market, Aquascape embraces a cultural philosophy of building a balance in life.

COLLEEN HEITZLER

In 2002, about one year after I started working at Aquascape, a Pondless® Waterfall and stream was installed at my house by about 70 contractors on a Build-a-Pondless®

Waterfall seminar. At the time, my kids were 6, 4 and 2 years old and it immediately became the center point of our backyard. The kids always wanted to be near it, the neighbors loved it and Bob and I have loved relaxing by it since the day the waterfall was turned on.

In the early morning it's my "quiet time" spot. During breakfast, we watch the birds bathe and the squirrels scamper around the ground cover. In the daytime, the kids

are never far from it; setting up army men, action figures, Barbie dolls, and buckets of water ... the list goes on and on. Our neighbor boy would wander from his house and sit by the stream for hours ... literally.

Now my children are 15, 13 and 10. The army guys and the dinosaurs are a fond memory of younger years. As a growing family, we find ourselves gathering for dinner near the stream, and we seem to be in less of a hurry to jump up from the table to clean up and move on to what ... the TV? Yikes! We've added a new stone patio and a fire pit to increase the backyard enjoyment. And

as we lay down to sleep at the end of the day, we open the windows of our master bedroom to let in the soothing sound of the stream. There's really not a time of day that we don't interact with and love our stream. I can't imagine my backyard or my house without it.

DIRECTOR OF CONTRACTOR DEVELOPMENT AND FIELD RESEARCH

ED BEAULIEU

The feeling ... Priceless!!!

It's like trying to describe a day of fishing and not catching a thing but loving it! It's like ... A day at the beach reading a book and listening to the waves ... Sitting on a dock at sunset with friends and family ... Hiking up a mountain stream looking for the headwaters, experiencing unique vistas around each bend of the stream ... Kids catching frogs and asking me about dragonfly naiads ... The shimmer and reflection of the evening sun on my ceiling ... The summer breeze blowing through my bedroom window carrying with it the music of cascading water ...

VP OF BUSINESS DEVELOPMENT

JEFF PAYTON

I think our pond gets used by my kids more than their swing set does! The first thing they do when they go in the backyard is run over to the pond to check on the fish, find frogs or throw some of the rocks. When it gets hot outside they love to put their swim trunks on and climb in the

water garden and slide down the big smooth rock on the waterfall. My favorite time to enjoy my pond is when it gets dark outside and the lights come on. The fish seem to be more active when the lights illuminate everything in the water.

CONSTRUCTION MANAGER, AQUASCAPE DESIGNS

BRIAN HELFRICH

What do I like best about my pond? I can't choose just one thing but these are some of my favorite benefits of pond ownership:

- The anticipation of spring after a long winter, the koi come out of their cave like the ground hog comes out of his hole.
- The pond constantly feeds my imagination. As a somewhat creative person, I find that the pond is like a painting that is never finished

and I can always improve on it.

- The wildlife! The frogs, salamanders, dragonflies, fish, snails, different birds (even the occasional visit from a heron lights up my kids' eyes).
- The smile on my wife's face as she watches our kids explore, discover, imagine and learn.
- The indescribable feeling of relaxation I have as the moon rises, the sun sets and the underwater lights light up the pond and cast moving shadows against the house and the different trees.

Brian's Pond

DIRECTOR OF PRODUCT MARKETING

SCOTT RHODES

I couldn't imagine life without a water feature. As a lifelong pond and aquarium hobbyist, water has always been an integral part of who I am as a person. It all started with a 10-gallon aquarium in my bedroom as a child and blossomed into a lifelong career and passion. The size of my aquarium also grew

from 10 gallons into a 200 gallon saltwater reef aquarium and our newest addition, a beautiful self-built basalt column fountain as the main focal point when walking into my home. My wife often comments on the huge diversity of wildlife that uses our fountain for bathing or taking a well deserved drink of water on hot summer days, I guess she is hooked as well. I would like to personally welcome you to the Aquascape family and the water gardening lifestyle!

DIRECTOR OF MARKETING

MICHELLE KURSCHNER

My water feature is the centerpiece of my entire outdoor living area. Everything else is built around it to compliment it because it is the most enjoyable room at my home during the warmer months. I just can't get enough of it. The first thing that I do when I come home after work is visit my

pond because there is always something new about it. Whether it is new wildlife, new plantings emerging or just an overall new energy, it is like Christmas every day! When we sit by our pond to relax and unwind and everything else in life just disappears.

DIANE KETCH

The morning sun, barely peeking over the tree tops across the field, has already cast a beautiful red glow onto our 11 x 16 pond.

Magic (our cat) scampers out the door, climbs to the top of our waterfalls for a drink and jumps across to the flat rock that separates our waterfall in two. She stretches out to catch the warm rays of the early morning sun and to spy on the chirping birds. Rex, our

German shepherd, races around the yard to make sure everything is as it should be, then prances back to the side of the pond for his first drink of the day. All of the koi in the pond meander over to him and try to catch his tongue. It's impossible not to smile. The aroma of my coffee mingles with the fresh dew-filled air, and at this very moment, there is not a better place in the world.

You might think that one would get tired of the same old thing after seven years. That just doesn't happen. We dine beside the pond every evening. We've added a gazebo to allow us to sit beside the pond, no matter what the weather offers. We often play games with

neighbours, family and friends until the wee hours of the morning.

Strangers are compelled to stop at the front of our house when they hear the water. They are overwhelmed by the whole ambiance. The first comment out of their mouths is always – you don't have to go anywhere, you have everything you need right here so true

VP OF PRODUCT DEVELOPMENT

DAVE KELLY

have two water features and each of them is unique in the way we interact and enjoy them.

The front pond, waterfall and stream is the entrance way to my house. It strikes up conversation and sets the mood for visiting friends or family. The top waterfall is just outside my living room window. We roll the window

open and the sound of the cascading water travels throughout the front rooms of the house. My kids, especially my daughter, love to find the frogs that make the pond's ecosystem their home.

At night the lighting in and around the pond brings about a whole new setting. Underwater lights beneath the

large flagstone bridge add a really cool effect making it appear the bridge is hovering above the water. My wife and I sometimes relax on the front porch after the kids are in bed ... a nice way to wind down the day.

The basalt fountain in the back of my house is outside our family room and master bedroom. I love going to sleep at night and waking in the morning to the splash of water as it bubbles over the basalt rocks. The basalt fountain receives compliments from guests because of its scaled-down size and location in a perennial bed just off the deck. The fountain provides a great sound and backdrop at night with the lights glowing off the wet stones ... especially when kicking back around the campfire.

Beautiful Ponds**

SALES REPRESENTATIVE

GORDON SZOLNYANSZKY

This Pondless® Waterfall was installed just in time for my house-warming party about a year and a half ago. After nine years working at Aquascape, this is my first water feature! I enjoy my Pondless® Waterfall in the winter just as much as I do in the summer as it's the focal point of the backyard. Being in sales, it helps me sell products like the IonGen™ and LED lights with first hand experience living the lifestyle. Every tour of my new home ends with the Pondless® Waterfall!

DIRECTOR OF OPERATIONS - CANADA

ROSS PYNE

What I would like people to know about water features is you do not have to have a huge pond to get enjoyment from water features. This small water feature on our deck provides not only the soothing

sound of water, but provides comical relief as well. It is incredible to watch the birds come every day to take a bath and if the fountain is turned off the birds stare at us with a puzzled look on their faces.

POND MASTER / CANADIAN MASTER TECHNICAL RESOURCE

CHUCK CATTON

Our water feature is our serenity. It brings the country into our city backyard. Many of our guests comment that our yard reminds them of a cottage setting. For us, the sound of the waterfalls helps us unwind at the end of a busy day.

One of the aspects we like most is the opportunity to provide our son and his friends with nature's playground. He and his friends are often catching minnows and tadpoles. In doing so, they inadvertently learn about ecosystems and metamorphosis in our own backyard. They also enjoy feeding the fish and racing sticks down the stream. They even explore water pathways by arranging and re-arranging rocks to change the flow of the water. They can manipulate the paths the water takes and observe visually as well as listen to the differences. Our final highlight is the wildlife that visits our pond. In the spring the singing toads can be heard down our street. We have also attracted deer, ducks, and frogs.

Kits

Aquascape Ecosystem Pond Kits

The Aquascape approach to creating a pond kit is quite different from many other companies' offerings. The goal with our ecosystem pond kits is to create a complete low-maintenance system that works with Mother Nature to provide food, shelter, and safety to the wildlife around it. All components selected work well together and complement the addition of rocks, gravel, fish and plants.

Video on
**How to Build
a Pond**

Aquascape Pondless® Waterfalls

One of our most popular water kits that features a beautiful disappearing waterfall is the Pondless® Waterfall kit. Don't worry, we left the pond portion out on purpose and it can always be added later. The Aquascape Pondless® Waterfall system gives all the beauty, sights and sounds of water without the pond portion. This style of water feature is popular with consumers with space constraints, small children or municipality restrictions.

**How to Build
a Pondless®**

An Aquascape **Pond Kit** packages components together in a convenient, all-in-one kit that takes the guesswork out of assembling the components separately.

MicroPond® Kit

Our most popular DIY pond kit takes the guesswork out of trying to assemble the perfect combination of equipment and liner.

Kit Includes:

- MicroSkim® - Removes leaves and debris from the surface of the pond and provides protection for your pump
- MicroFalls® Filter - Provides complete biological filtration
- AquaSurge® 2000 waterfall pump
- 25 feet of 1½" quality kink-free hose
- Pond Liner made from quality EPDM 45 mil fish safe rubber - 20-year guarantee!
- Geotextile underlayment - Protects liner from sharp objects
- All necessary fittings and silicone sealants
- Complete installation instructions and owner's manual

MicroPond® Kits come in the following sizes:

4' x 6' MicroPond® Kit
Includes 8' x 10' Liner (Unit Weight: 75 lbs.)
#99763 MSRP \$949.98

6' x 8' MicroPond® Kit
Includes 10' x 12' Liner (Unit Weight: 87 lbs.)
#99764 MSRP \$999.98

8' x 11' MicroPond® Kit
Includes 12' x 15' Liner (Unit Weight: 107 lbs.)
#99765 MSRP \$1,099.98

Small Pond Kit 8' X 11'

The #1 professionally installed pond kit provides a smaller sized pond at an entry-level price.

Kit Includes:

- 12' x 15' Liner, 180 sq. ft. Underlayment
- MicroFalls® w/Rock Tray and BioBalls™
- MicroSkim®
- AquaSurge® 3000 Pump
- Water Treatment Starter Package
- 1½" x 25' Flexible PVC Pipe
- Pump Plumbing Assembly and Installation Kit

with AquaSurge® 3000 Pump
(Unit Weight: 129 lbs.)
#53008 MSRP \$1,343.71

MicroPond® Build

Medium Pond Kit 11' X 16'

The 11' x 16' pond is small enough to fit into tight spaces yet big enough to make a design impact in any landscape setting.

Kit Includes:

- 15' x 20' Liner, 300 sq. ft. Underlayment
- Signature Series™ BioFalls® Filter 2500 w/BioBalls™
- Signature Series™ 6.0 Skimmer
- AquaSurge® PRO 2000-4000 OR 3PL Tsurumi Pump
- Water Treatment Starter Package
- 2" x 25' Flexible PVC Pipe
- Pump Check Valve Assembly and Installation Kit
- LED Lighting Package
 - (2) 3-Watt 12V LED Spotlights
 - 1-Watt 12V LED Waterfall Light
 - 60-Watt Transformer w/photocell
 - 3-Way Splitter and 25' LVL Extension Cable

Two Pump Model Choices

with AquaSurge® PRO 2000-4000 Pump
(Unit Weight: 222 lbs.)
#53009 MSRP \$2,382.05

with Tsurumi 3PL Pump
(Unit Weight: 234 lbs.)
#53000 MSRP \$2,445.03

Large Pond Kit 21' X 26'

Don't let larger ponds intimidate you. Our largest pre-packaged kit ensures you have all of the right products for the job.

Kit Includes:

- 25' x 30' Liner, 750 sq. ft. Underlayment
- Signature Series™ BioFalls® Filter 6000 w/BioBalls™
- Signature Series™ 8.0 Skimmer
- AquaSurge® PRO 4000-8000 OR 9PL Tsurumi Pump
- Water Treatment Starter Package
- 2" x 50' Flexible PVC Pipe
- Pump Check Valve Assembly and Installation Kit
- LED Lighting Package
 - (2) 3-Watt 12V LED Spotlights
 - 1-Watt 12V LED Waterfall Light
 - 60-Watt Transformer w/photocell
 - 3-Way Splitter and 25' LVL Extension Cable

Two Pump Model Choices

with AquaSurge® PRO 4000-8000 Pump
(Unit Weight: 481 lbs.)
#53010 MSRP \$3,543.46

with Tsurumi 9PL Pump
(Unit Weight: 481 lbs.)
#53002 MSRP \$3,750.46

Medium and Large kits available with adjustable flow AquaSurge® PRO pumps with multi-function remote

don't forget

Add-On Stream Liners (Note: When adding a stream, additional pipe lengths and coupling fitting may be required.)

45 mil EPDM Boxed Liner

10' x 10' (Unit Weight: 29 lbs.)
#29607 MSRP \$129.00

10' x 20' (Unit Weight: 58 lbs.)
#29612 MSRP \$258.00

10' x 30' (Unit Weight: 87 lbs.)
#29616 MSRP \$387.00

Pondless® Waterfall Kits are a great way to be introduced to the Aquascape Pondless® Waterfall Vault and Waterfall Spillway!

MicroPondless® Waterfall Kit

A Pondless® Waterfall is simply a waterfall without the pond.

The perfect DIY solution for small spaces includes enough liner to create a small 3' long waterfalls.

Kit Includes:

- MicroFalls® Filter - This is the starting point of your waterfall
- MicroCentipede™ Module - Provides space for water to be returned to the pump
- MicroSnorkel™ Vault - Provides access to your pump and allows you to check the water level in the system
- AquaSurge® 2000 waterfall pump
- 25 feet of 1½" quality kink-free hose
- 10' x 12' Pond Liner made from quality EPDM 45 mil fish safe rubber - 20-year guarantee!
- Geotextile Underlayment - Protects liner from sharp objects
- Complete installation instructions and owner's manual

*Filter mats and media nets for the MicroFalls® unit are not included with the MicroPondless® Waterfall kit.

4' x 6' MicroPondless® Waterfall Kit
(Unit Weight: 83 lbs.)
#99769 MSRP \$999.98

MicroSnorkel™ / MicroCentipede™ Kit
(Unit Weight: 13 lbs.)
#98931 MSRP \$199.98

Small Pondless® Waterfall With Up To 6' Stream

Provide the sight and sound of cascading water into any landscape setting with our small entry-level professional Pondless® Waterfall Kit. Includes enough liner to create a short 6' waterfalls and stream.

Kit Includes:

- 10' x 10' Liner, 100 sq. ft. Underlayment
- 10' x 8' Stream Liner
- Pondless® Waterfall Vault
- Waterfall Spillway
- (3) Small AquaBlox®
- AquaSurge® PRO 2000-4000 Pump
- 1.5" x 25' Flexible PVC Pipe
- Pump Check Valve Assembly and Installation Kit

with AquaSurge® PRO 2000-4000 Pump
(Unit Weight: 145 lbs.)
#53011 MSRP \$1,328.50

Pond Filtration

UltraKlean™ Biological Pressure Filter

Guaranteed to clear pond water

The Aquascape UltraKlean™ Biological Pressure Filter with a high output ultraviolet clarifier/sterilizer and an integrated electronic bulb-saver option, provides pond owners with optimum water conditions and crystal clear pond water. The unique sponge-free design minimizes maintenance and maximizes efficient mechanical and biological filtration. Simple-to-use cleaning feature allows for the unit to be backwashed in less than five minutes without opening the canister or getting hands dirty.

- Provides optimal filtration for ponds up to 3,500 gallons / 13,000 liters
- Efficiently traps dirt and debris and eliminates green water
- Includes Aquascape UltraKlean™ Bio-Media and T5 high-output ultraviolet clarifier/sterilizer
- Easily integrated into new or existing ponds

UltraKlean™ 2000 (Unit Weight: 12 lbs.)
#95053 MSRP \$349.98

UltraKlean™ 3500 (Unit Weight: 15 lbs.)
#95054 MSRP \$429.98

Fittings Included

3 x 1", 1.25", 1.50"
Multi-Hose Adapter

1 x Backwash Cap

3-Year Limited Warranty

1 UV clarifier/sterilizer on/off indicator light
2 Cleaning indicator light signals when the filter requires backwashing
3 Electronic ballast ensures optimum wattage and bulb output
4 UV clarifier/sterilizer bulb-saver timer feature allows for bulb on/off customization to save bulb life, or can be used when adding bacteria
5 Backwash valve redirects water and stirs up media, effectively cleaning the UltraKlean™ Bio-Media
6 Water inlet diffuser evenly distributes debris maximizing mechanical filtration
7 UV clarifier/sterilizer eliminates single-celled algae commonly referred to as green water
8 UltraKlean™ Bio-Media used for efficient biological/mechanical filtration
9 Backwash swirl diffuser efficiently churns the water to clean the UltraKlean™ Bio-Media

UltraKlean™ Product Specification Chart		
Model	2000	3500
Average Pond Size Recommendation	2,000 US gallons / 7,600 liters	3,500 US gallons / 13,000 liters
Maximum Flow Rate (GPH)	2,700 GPH / 10,200 LPH	5,200 GPH / 19,800 LPH
Wattage	14 Watts	28 Watts
Power Cord Length	20'	20'
Discharge Hose Diameter	1", 1.25", 1.50"	1", 1.25", 1.50"
Warranty	3-Year Limited	3-Year Limited

For ponds larger than 3,500 gallons, or ponds containing large fish loads, we recommend using a larger unit or multiple units. Multiple UltraKlean™ units can be easily plumbed in line with one pump using an Aquascape Two-Way Control Valve (sold separately).

18 Pond Filtration

Aquascape's family of field-proven, time-tested **Skimmer Filters** are the #1 selling skimmers in the water garden market. No gizmos or gadgets designed by engineers behind a desk, but rather, functional, easy-to-install and maintain filters designed by actual pond builders. They include patented features that make installation a snap with components designed to make maintenance effortless.

Skimmer Filters

Features found on the Signature Series™ 6.0 & 8.0 Skimmers

- ① Natural Looking Faux-Rock Lid: Grooves designed into lid provide space for gravel or mulch
- ② Patented Adjustable Faceplate: Have you ever messed up your transit measurement when setting your pond's water level? Forget about it! Four inches of travel enable you to tweak out the perfect water level (Signature Series™ 6.0 & 8.0)
- ③ Easy Maintenance: We are making it as easy as possible for the pond owner to maintain their filter with a large-volume, rigid debris basket (Signature Series™ 6.0 & 8.0)
- ④ Injection Molded Fittings: Check valve threads into skimmer wall providing a professional watertight seal along the back of the filter
- ⑤ Corrosion-resistant non-cross-threading hardware stands up to the elements
- ⑥ Filter mat removes smaller sediment and debris
- ⑦ Rounded shape provides maximum strength

BioFalls® Filters

Features found on the Signature Series™ 2500 & 6000 Biofalls® Filter

- ① More advanced installers will love the reversible waterfall lip option, which provides the flexibility of using a natural stone spillway and large accent boulders along the front of the unit (for 2500 and 6000 model filters)
- ② Removable upper tray can hold rocks, plants, and gravel, helping to naturalize the BioFalls® Filter into the surrounding landscape
- ③ Media net and BioBalls™ (BioBalls™ sold separately)
- ④ Corrosion resistant non-cross-threading hardware stands up to the elements
- ⑤ Two Poly-Flo ESA biological Filter Mats provide 50% more surface area than traditional filter mats
- ⑥ Two bulkhead ports provide plumbing options
- ⑦ Filter support rack ensures evenly distributed waterflow through filter mats and provides structural strength to the walls of the filter
- ⑧ Circular shape provides maximum strength and makes it easy to camouflage into the landscape

20 Pond Filtration

Aquascape **UltraKlean™ Filtration Kits** take the guesswork out of selecting the correct pump and filtration combination for any new or existing pond. Available in three sizes and two configurations, there is an UltraKlean™ filter kit for almost any pond configuration. Buying a filtration kit is simple and provides the best overall value as components are selected by Aquascape not only for size of pond, but also matched components that will work well together as a team.

UltraKlean™ 1500 Filtration Kit

Pressure Filter and Pump Kit

Includes the following components:

- UltraKlean™ 2000 Pressure Filter with Integrated 14-Watt UV Clarifier/Sterilizer
- AquaForce® 1000 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- Provides filtration for ponds up to 1,500 gallons / 5,678 liters

(Unit Weight: 38 lbs.)
#95058 MSRP \$539.98

UltraKlean™ 2500 Filtration Kit

Pressure Filter and Pump Kit

Includes the following components:

- UltraKlean™ 2000 Pressure Filter with Integrated 14-Watt UV Clarifier/Sterilizer
- AquaForce® 2700 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- Provides filtration for ponds up to 2,500 gallons / 9,464 liters

(Unit Weight: 40 lbs.)
#95059 MSRP \$589.98

UltraKlean™ 3500 Filtration Kit

Pressure Filter and Pump Kit

Includes the following components:

- UltraKlean™ 3500 Pressure Filter with Integrated 28-Watt UV Clarifier/Sterilizer
- AquaForce® 5200 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps
- 2 Way control valve
- Provides filtration for ponds up to 3,500 gallons / 13,249 liters

(Unit Weight: 45 lbs.)
#95060 MSRP \$699.98

UltraKlean™ BioBalls™

Aquascape UltraKlean™ BioBalls™ are designed specifically to trap dirt and debris when used in conjunction with Aquascape UltraKlean™ Pressure Filters. UltraKlean™ BioBalls™ sink and provide a textured surface ideal for the colonization of beneficial bacteria in submerged applications.

(250 pcs.) .75" diameter
(Unit Weight: 1.5 lbs.)
#95055 MSRP \$299.98

UltraKlean™ 1000 Filtration Kit

BioFalls® Filter and Pump Kit

Includes the following components:

- MicroFalls® Waterfall Filter System
- AquaForce® 2700 Solids Handling Waterfall Pump
- 25 Feet of 1.5" Quality Kink Free Pipe
- Stainless Steel Hose Clamps

(Unit Weight: 32 lbs.)
#77014 MSRP \$499.98

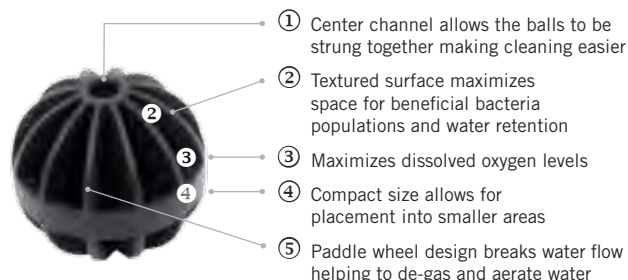

BioBalls™

Aquascape BioBalls™ provide a textured surface area (19 sq. inches per BioBall™) for beneficial bacteria to colonize and grow. Aquascape BioBalls™ are the ideal filtration media for use in all biological filtration. Each box contains 100 balls and fits perfectly in the Aquascape MicroFalls®.

- Easy to clean and maintain
- Textured surface for optimum bacteria growth
- Can be used for filtration or in de-gassing towers
- Will not break like pegged BioBalls™

(100 pcs.) 1.5" diameter
 (Unit Weight: 2.8 lbs.)
#98464 MSRP \$34.98

Filter Media Rolls

Bulk roll provides the ability to cut the filter mat to the shape and size of any pond filter. The 2" coarse material is the most popular material used in skimmers and biological filters.

1.25" x 10' Coarse 56" wide
 (Unit Weight: 8.4 lbs.)
#99321 MSRP \$229.98

2" x 10' Coarse 56" wide
 (Unit Weight: 11.9 lbs.)
#99323 MSRP \$279.98

1" x 10' Dense 56" wide
 (Unit Weight: 8.8 lbs.)
#99325 MSRP \$189.98

22 Pond Filtration

Pondless® Waterfall Vault

U.S. Patent 7,754,072

Not too big and not too small, the expandability of the Pondless® Waterfall Vault makes this filter perfectly sized to meet the need of any Pondless® Waterfall or RainXchange® project.

- Simple to install and maintain
- Large interior fits a wide range of pump sizes up to 12,500 gallons per hour
- Expandable height allows the Pondless® Waterfall Vault to be used on any size project
- Comes standard for use with the Small AquaBlox®
- Optional Pondless® Waterfall Extension can be used when creating deeper basins using the Large AquaBlox®
- Made from durable rotationally molded polyethylene

(Unit Weight: 14 lbs.)
#49000 MSRP \$269.99

Pondless® Waterfall Extension

- Slides onto the Pondless® Waterfall Vault increasing the height for deeper basins using the Large AquaBlox®
- Required when using larger and/or taller pumps with 3-inch plumbing to ensure the height of the vault is tall enough to accommodate the large pump

(Unit Weight: 5.4 lbs.)
#49001 MSRP \$74.99

Pondless® Waterfall Vault & Extension Specification Chart

	Vault	Vault Extension
Dimensions	23" L x 25.5" H x 17" W	16" L x 9" H x 16" W
Access Opening Dimensions	16" L x 16" W	NA
Pump Sizes	up to 12,500 GPH / 47,300 LPH	NA

Pondless® Waterfall Vault Application

- ① Extra wide opening provides easy access
- ② Excellent water circulation through horizontal and vertical water intakes
- ③ Large interior fits a wide range of pump sizes

Designed to integrate with the AquaBlox® making excavation and installation a snap!

Built in water level inspection port allows lid to be buried out of sight.

Waterfall Spillway

The Waterfall Spillway is a cost-effective solution to help create the starting point of a beautiful waterfall and stream.

- Creates smooth, consistent, leak-free water flow
- Handles flow rates up to 7,500 GPH / 28,000 LPH
- The durable design makes it easy to disguise by allowing soil, rocks or logs to be placed directly on top of the unit
- Comes complete with a 2-inch PVC slip fitting, 1.5-inch barbed hose fitting and pre-installed bulk head

When to use the Waterfall Spillway - The Waterfall Spillway is a versatile tool that can be used in a wide variety of water feature applications. You may find that your imagination is the only limitation to what you can create with the Waterfall Spillway.

- The Waterfall Spillway is an ideal solution for starting waterfalls on Pondless® Waterfall systems, where, due to the absence of fish, more expensive biological filters aren't necessary.
- The Waterfall Spillway is also an excellent choice for designing additional waterfalls and streams onto new or existing ponds that already have a biological filter.
- With the Waterfall Spillway you can build behind hardscape walls to provide a more formal waterfall design.
- You can use multiple Waterfall Spillways to design larger, more creative waterfall configurations.

17.5" L x 24" W x 5" H (Unit Weight: 9 lbs.)
#77000 MSRP \$139.99

Waterfall Spillway Specification Chart

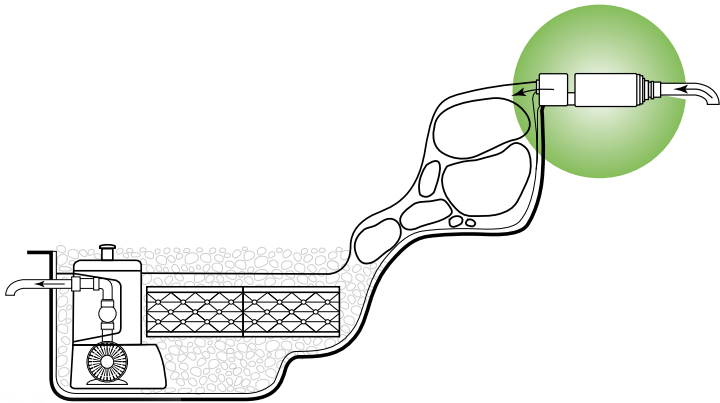

Spillway Width	22"
Bulkhead Port	Single 2"
Fittings Included	2" PVC slip, 1.5" barbed hose fitting and pre-installed bulkhead
Flow Rates Handled	7,500 GPH / 28,000 LPH

Video on
Waterfall Spillway

Waterfall Spillway Application

- ① Strong design allows boulders, logs, gravel, soil or other creative landscape material to be set directly on top of the Waterfall Spillway, helping to camouflage it into the surrounding landscape
- ② Watertight connection is made using the fitting on the back of the Waterfall Spillway
- ③ Wide 22-inch spillway handles flow rates up to 7,500 gallons per hour
- ④ Internal barriers dam the incoming flow of water, providing a smooth-flowing waterfall

24 Pond Filtration

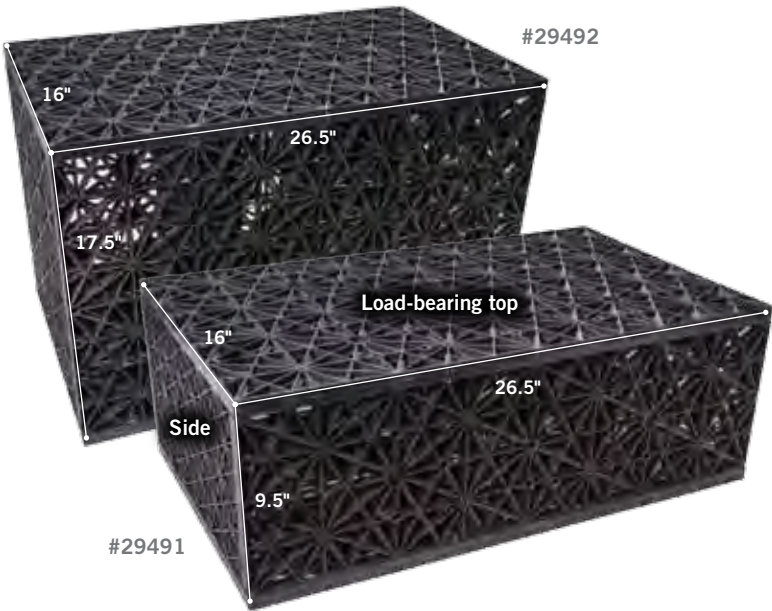

AquaBlox®

Aquascape's AquaBlox® modular water storage system, also known as the D-Raintank® by Atlantis®, is an efficient way to maximize your water storage capacity in Pondless® Waterfall reservoirs.

- Over 3 times more water storage capacity than gravel
- Holds approximately 7.4 gallons of water per cubic foot, as compared to gravel, which holds approximately 2.2 gallons of water per cubic foot
- Extra water storage capacity means less time topping off reservoir due to evaporation
- Easier to clean and less prone to clogging than traditional gravel basins
- The ability to hold more water per cubic foot allows for smaller reservoirs
- Less labor required to excavate and move gravel for basin
- Uses less liner and geotextile underlayment than reservoirs constructed with gravel

Small AquaBlox® (Unit Weight: 11 lbs.)
#29491 MSRP \$42.99

Large AquaBlox® (Unit Weight: 16 lbs.)
#29492 MSRP \$52.99

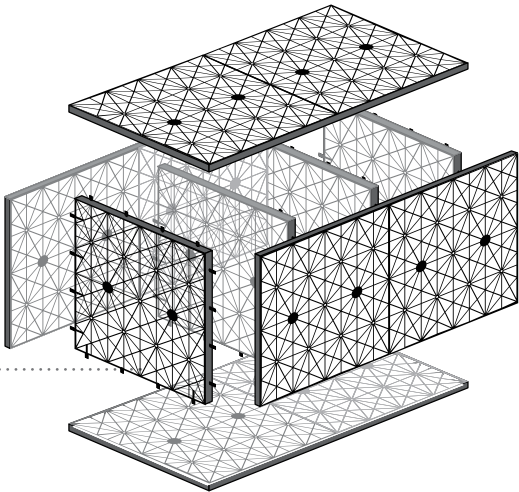

Modular Design

The lightweight design of AquaBlox® makes installation quicker, safer and less expensive.

takes 1 minute
to assemble!

AquaBlox® are assembled on site, making transporting and installation extremely efficient

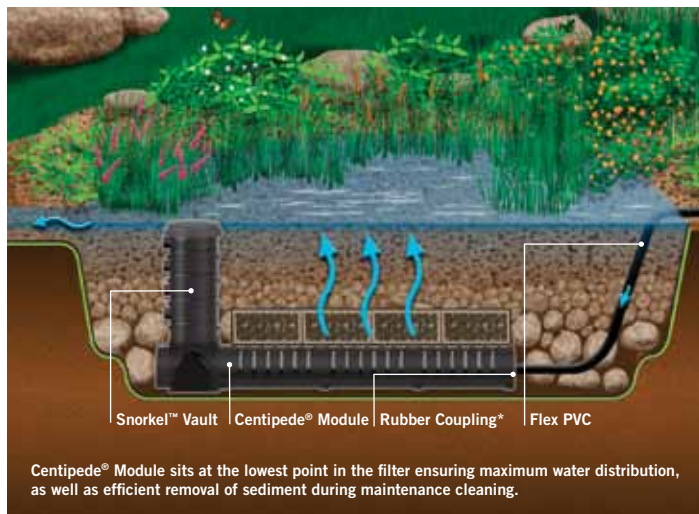

AquaBlox® Specification Chart				
AquaBlox® Size	Dimensions	# of Parts / Dimensions	Volume	Load Bearing Weight

Large	26.5" L x 16" W x 17.5" H	(4) 26.5" x 16"; (4) 14.5" x 16"	32 gallons	5,472 lbs./sq. ft.

Wetland Filter

A Field-Tested, Field-Proven System for Filtering Large Bodies of Water

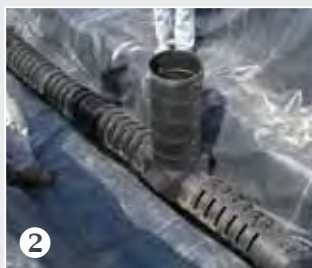

Our patented Snorkel™ Vault and Centipede® Module were specifically designed to tackle any number of the common issues that plague large scale water features. They are modular in design, allowing builders and designers the flexibility to expand the system to meet their needs.

- Highly effective at removing sediment (suspended solids) from the pond
- Easily access collected sediment with the Snorkel™ Vault, reducing the need for costly and invasive dredging
- Improves water clarity
- Works on earth bottom and liner membrane ponds
- Strips excess nutrients from the water column, reducing algae and the physical and chemical maintenance that goes along with removing algae
- Easily retrofitted onto existing ponds
- Create a waterfall and stream by designing the wetland filter system off the perimeter of the pond

Constructed Wetland Filter System Requirements

Pond Size (in sq. ft.)	Actual Filter Size	Number of Centipede® Modules	Liner, basic configurations minimum sizes	Pump Flow GPH
600	8' x 10'	1	15' x 20'	3,000
2,400	8' x 15'	2	15' x 25'	4,500
7,200	8' x 20'	3	15' x 30'	7,500
10,000	8' x 25'	4	15' x 35'	10,000
20,000	8' x 50'	8	15' x 70'	20,000
40,000	25' x 50'	12	35' x 70'	30,000
80,000	50' x 50'	16	70' x 70'	40,000

Step 1: The layout of the Snorkel™ Vault and Centipede® Modules for the first shoreline wetland filter

Step 2: The excavated wetland is lined with EPDM rubber liner and the Snorkel™ Vault and Centipede® Modules are set in place

Step 3: The Centipede® Modules are covered with several layers of stones. The larger voids found between these stones allow the incoming water to flow throughout the wetland and provides ample room for the deposition of sediments

Step 4: A section of the finished wetland

Large Snorkel™ Vault and Cap

- Allows pump to be dropped in for easy cleaning
- 4 ports for Large Centipede®
- Module attachment

(Unit Weight: 27 lbs.)
#29064 MSRP \$459.99

Snorkel™ Vault Extension

- For use when creating deeper basins. Also required when using the AquascapePRO 10,000 pump
- For use with large Snorkel™ Vault

(Unit Weight: 10 lbs.)
#29068 MSRP \$169.99

Large Centipede® Module

- Modular design
- For use with Large Snorkel™ Vault

(Unit Weight: 29 lbs.)
#29065 MSRP \$329.99

26 Pond Filtration

IonGen™ In...Algae Out!

The IonGen™ System G2 Electronic Algae Controller allows you to spend your time relaxing next to your water feature instead of trying to maintain it! The IonGen™ effectively kills algae without the use of traditional liquid chemicals and is designed with a microprocessor that sends a signal to its ion producing probe that helps control algae throughout the entire water feature.

- Drastically reduces pond maintenance
- Helps to control unsightly algae without the use of liquid chemicals
- Simple to install
- Compatible with water containing fish and plants
- Energy efficient (less than \$1 per month in electrical costs)
- Treats ponds up to 25,000 gallons
- Probe typically lasts 1-3 seasons depending on the ionization level it is operated at, volume of water in the pond, and the algae conditions you are trying to control
- Complete with electronic control panel, outdoor-rated transformer, flow chamber, probe fittings, copper test kit and owner's manual

IonGen™ System G2
4.25" L x 1" W x 3.25" H (Control Panel)
6.25" L x 2.75" W x 4.75" H (Flow Chamber)
(Unit Weight: 3.3 lbs.)
#95027 MSRP \$379.98

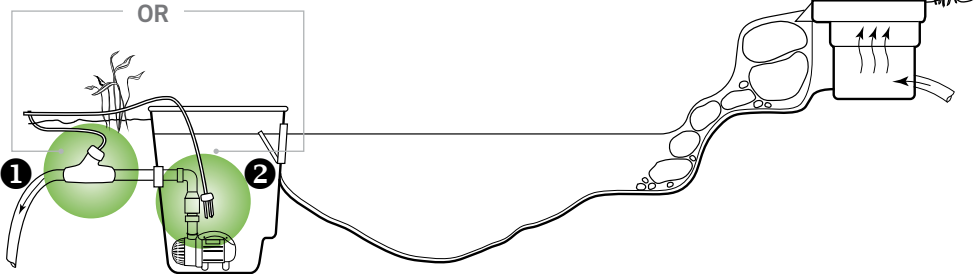

EPA Registration #83739-1

Video on
IonGen™

IonGen™ Pond Application

- Option 1:** Probe can be installed directly into the water feature plumbing
Option 2: Probe can be placed in an area with good water circulation

How does the Aquascape IonGen™ G2 System Help Control String Algae?

The Aquascape IonGen™ System releases a calculated mixture of copper ions into the path of flowing water. The IonGen™ Control Panel sends signals that slowly dissolve the replaceable probe. The ions produced by the probe treat the water and reduce string algae, as well as drastically reduce maintenance and the need for liquid pond chemicals.

Before IonGen™ G2

After IonGen™ G2

- ① Weatherproof Control Panel
- ② Easy-to-read digital display
- ③ Indicator notifies you when the probe needs to be replaced
- ④ Adjustable ionization level
- ⑤ Durable quick-connect electrical connections - cable to transformer (12' long) and probe (15' long)

- ① Tool-free probe installation
- ② Angled probe helps deflect debris and reduce clogging
- ③ 2" threaded inlet and outlet

Kills String Algae

⑤ durable quick-connect electrical connections

Fittings Included

1", 1.25", 1.5" Universal Barbed Hosetail Fitting

2" PVC Slip Fitting

IonGen™ Probe for the G2 System

- For 2nd Generation Flow Chamber
- Includes 5 ft. Quick-Connect cable

1.5" L x 1.5" W x 3.25" H
(Unit Weight: .5 lbs.)
#95028 MSRP \$119.98

IonGen™ Probe for the G1.5 System

- For 1st Generation PVC tee-style Flow Chamber and the G2 control panel
- Includes 5 ft. Quick-Connect cable

(Unit Weight: 1 lb.)
#95075 MSRP \$119.98

IonGen™ Probe for the G1 System

- For 1st Generation PVC tee-style Flow Chamber and the G1 control panel
- Works with any ionization system that includes EDAC style connector

(Unit Weight: .9 lbs.)
#95074 MSRP \$119.98

Copper Test Kit

- Measures residual copper
- 25 tests per kit

(Unit Weight: .2 lbs.)
#96020 MSRP \$19.98

KH/Alkalinity Test Kit

- Measures KH/Alkalinity
- 60 tests per kit

(Unit Weight: .2 lbs.)
#96019 MSRP \$19.98

IonGen™ Probe Holder

- Provides installation of G2 Probe without Flow Chamber
- Can be used in a filter, such as a Skimmer or Pondless® Waterfall Vault
- Straps onto any pipe from 1 - 4 inches in diameter
- Works great attached to the AquascapePRO® Check Valve

(Unit Weight: .5 lbs.)
#95077 MSRP \$9.98

28 Pond Filtration

UltraKlear® UV Clarifier/Sterilizer

In a pond, algae blooms, or "green water", can be a difficult issue to address safely and effectively. Not anymore! The Aquascape UltraKlear® UV Clarifier/Sterilizer uses a technologically-advanced T5 high output UVC bulb, making it more efficient than traditional UV clarifiers. The Aquascape UltraKlear® UV Clarifier/Sterilizer features a swirl sleeve that helps direct the water around the UV bulb, creating more contact time and increasing UV efficiency up to 50% over traditional UV clarifiers.

- Effectively clears unsightly green (pea soup) water algae blooms
- Simple to use and easy to maintain
- Features a swirl sleeve that optimizes UV efficiency
- High-output UV bulb maximizes performance
- Easy-to-remove bulb and quartz sleeve
- Can be mounted horizontally or vertically

UltraKlear® 1000 (Unit Weight: 6.5 lbs.)
#95036 MSRP \$179.98

UltraKlear® 2500 (Unit Weight: 8 lbs.)
#95037 MSRP \$219.98

UltraKlear® 5000 (Unit Weight: 10 lbs.)
#95038 MSRP \$299.98

3-Year Limited Warranty

Fittings Included

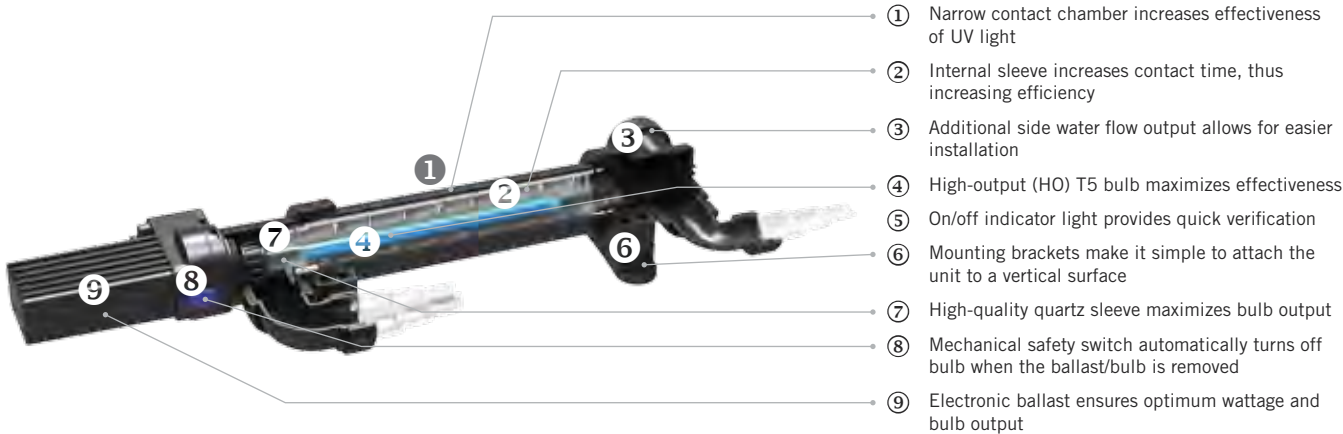

2 x 1.5" Locking Rotational Ball Fitting

3 x 1", 1.25", 1.50" Multi-Hose Adapter

1 x 1.50" Backwash Cap

For ponds larger than 5,000 gallons or ponds containing large fish loads, we recommend using a larger unit, or multiple UltraKlear® UV units. Multiple units can be easily plumbed in line with an UltraKlear® UV Adapter Kit or the Aquascape Two-way Control Valve.

Pond Filter Urn

The Aquascape Pond Filter Urn is ideal for smaller ponds, including preformed ponds or container water gardens. The Aquascape Pond Filter Urn can easily be incorporated into existing ponds. Ideal for use with Aquascape Ultra™, AquaForce® or AquaJet™ Water Pumps.

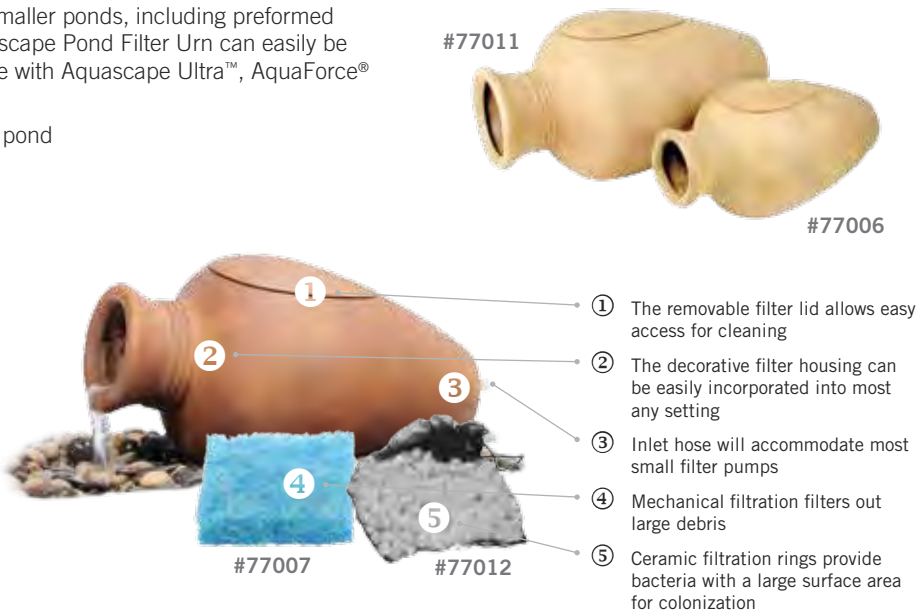

- Great add-on filtration for any size existing pond
- Simple to use and maintain
- Connects to most water pumps
- Ideal for use in smaller ponds or container water gardens

Container Water Garden Filter

Ideal for all container water gardens holding up to 50 gallons of water

The Aquascape Container Water Garden Filter is a complete solution for small to medium-size container water gardens or any containers with stagnant or non-moving water including birdbaths, or water containers holding specimen pond plants like lotus or waterlilies.

- Provides ideal filtration when adding goldfish to a container water garden
- Magnetically driven, or "mag drive" motor technology, is simple and easy to maintain
- Extremely energy-efficient
- Durable pre-filter water intake design prevents clogging and reduces pump maintenance
- Provides years of trouble-free operation

(Unit Weight: .8 lbs.)
#77005 MSRP \$24.98

Liner & Underlayment

EPDM Pond Liner

Aquascape 45 mil fish-safe EPDM pond liner leads the industry in quality and reliability. Backed by an industry leading 20 year guarantee, Aquascape is the choice of discriminating pond professionals.

- Safe for fish and plants
- Superior elongation and lay-flat characteristics
- Exceptional resistance to solar UV, ozone and oxidation

- Ease of installation with no special tools required
- 45 mil thickness
- 20 year guarantee

12' x 15' (Unit Weight: 52 lbs.)
#85001 MSRP \$232.20

15' x 15' (Unit Weight: 65 lbs.)
#85002 MSRP \$290.25

15' x 20' (Unit Weight: 87 lbs.)
#85003 MSRP \$387.00

20' x 25' (Unit Weight: 145 lbs.)
#85004 MSRP \$645.00

Boxed Non-Woven Geotextile Underlayment

Aquascape underlayment boxed for convenience. Multiple sections can be laid out for larger applications.

10' x 15' (Unit Weight: 5.7 lbs.)
#85010 MSRP \$49.00

Rock Pad

Also available in rolls!

The rock pad is an extra thick 3' x 3' nonwoven polypropylene fabric that can be laid down on the liner before placing those large rocks.

Rock Pad (Unit Weight: 1.1 lbs.)
#25000 MSRP \$26.99

Rock Pad Roll (15' x 150' Roll) (Unit Weight: 260 lbs.)
#25001 MSRP \$1,749.99

Woven Microgrid Geotextile

A specialty woven geotextile recommended for use on top of the AquaBlox® when using permeable pavers. This woven geotextile keeps the base aggregate bed on top of the AquaBlox®, while allowing water to infiltrate into the water storage basin.

8' x 225' Roll
(Unit Weight: 65 lbs.)
#42016 MSRP \$999.99

4' x 4' Woven Microgrid Geotextile
(Unit Weight: 0.5 lbs.)
#42015 MSRP \$14.99

Non-Woven Geotextile Underlayment Rolls

This soft polyethylene fabric helps protect pond liner from rocks and other sharp objects. The underlayment spreads easily and allows gases to escape.

Cut to Size
(Unit Weight: .04 lbs./ft.² over 900 sq.ft.)
#29227 MSRP \$.40 (Per sq.ft.)

5' x 300' (Unit Weight: 59 lbs.)
#30300 MSRP \$329.99

15' x 300' (Unit Weight: 200 lbs.)
#29169 MSRP \$899.99

7.5' x 600' (Unit Weight: 175 lbs.)
#29170 MSRP \$899.99

Hose & Pipe

Fish-Safe Pipe and Tubing

Flexible PVC Pipe - The pipe of choice for Pond Professionals. Reinforced PVC pipe resists crushing when buried beneath the ground and maintains flexibility making it easy to install. Pipe connections secured using standard schedule 40 fittings and glue.

Kink-Free Pipe - Excellent choice for the DIY Hobbyist. Extremely flexible, as well as resistant to crimping or collapsing around tight curves. Pipe connections secured using traditional barbed fittings and clamps.

Black Vinyl Tubing - Soft, yet durable U.V. resistant vinyl tubing is ideal for plumbing small decorative fountains and spitters. Pipe connections secured using traditional barbed fittings and clamps.

Flexible PVC Piping

- 1" x 50' (Unit Weight: 14.5 lbs.)
#48015 MSRP \$69.99
- 1 1/2" x 25' (Unit Weight: 12 lbs.)
#29021 MSRP \$49.99
- 1 1/2" x 50' (Unit Weight: 24 lbs.)
#29022 MSRP \$94.99
- 2" x 25' (Unit Weight: 16 lbs.)

#94011 MSRP \$149.98

Pre-Cut Kink-Free Pipe

Aquascape's kink-free pipe cut into 6-foot sections and packaged for convenience. Great for plumbing basalt and other natural stone fountains.

- 6' x 1/2" (Unit Weight: 0.85 lbs.)
#88003 MSRP \$11.98

- 6' x 3/4" (Unit Weight: 1 lb.)
#98404 MSRP \$12.98

An **AquascapePRO® Check Valve Assembly** is needed to connect your pump to the pond plumbing. Aquascape's dual union check valves have a removable connection underneath the check valve which allows you to disconnect the pump and plumbing without draining the water in your BioFalls® Filter (not included in #29500 Plumbing Assembly). See descriptions and chart below to determine which check valve assembly fits your project.

Refer to our Pricing and Program Guide for more information on the: 2-Way Flow Control Valve, Check Valve Assembly 2-3 Conversion Kit and the Check Valve 2" Aquasurge® Adapter

Pumps

Selecting the Style of Pump for Your Water Feature

Pumps Designed for Skimmer or Pondless® Waterfall Filter Systems

High Efficiency AquaSurge® Pump

- **Advantage** - Energy efficient, high flow asynchronous pump motor
- **Trade-off** - Solids and debris capability compared to the solids handling pump line

Solids Handling Pump

- **Advantage** - Low maintenance vortex-style impeller allows the pumps to handle large solids and debris
- **Trade-off** - Energy efficiency compared to the AquaSurge®

Pumps Designed to be Submerged Directly in the Pond

AquaForce® Pump

- **Advantage** - Large prefilter cage surrounds the asynchronous pump motor preventing leaves, algae and other debris from clogging the pump
- **Trade-offs** - Pump positioned in the lower portion of the pond where it may be difficult to hide

Ultra™ Pump

- **Advantage** - Small size and lower cost make this pump a good option for smaller water features
- **Trade-offs** - Solids and debris capability compared to the AquaForce®

AquaJet™ Pump

- **Advantage** - All-in-one pump includes choice of 3 fountain designs, as well as an adjustable divert valve that provides the option to send water to a small waterfall, external filter or spitting ornaments
- **Trade-offs** - Solids and debris capability compared to the AquaForce®

Pumps Designed for use with Decorative Fountains

Ultra™ Pump

- **Advantage** - Small size and wide range of sizes to choose from
- **Trade-offs** - None! Perfect pump solution for this type of application

Statuary Pump

- **Advantage** - Small size and lower cost make this pump a good option for very small decorative fountains
- **Trade-offs** - Limited range of flow rates to choose from

36 Pumps

AquaForce® Solids-Handling Waterfall Pump

Submersible, solids-handling waterfall and filter pump (available in flow rates from 1,000 to 5,200 GPH / 3,785 to 19,684 LPH)

AquaForce® asynchronous, solids-handling waterfall and filter pumps combine energy efficient performance, high flow rates and ease of maintenance making this pump the ideal choice for discriminating pond owners. The AquaForce® protective pre-filter cage allows the pump to be placed directly into the pond. AquaForce® pumps are able to pump solids up to one quarter of an inch, making it ideal for use with external pressure filters or Aquascape waterfalls type filter systems.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Asynchronous motor technology provides high torque, trouble-free performance at higher head heights
- Easy to maintain
- Durable prefilter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Plumbing adapter fittings included
- Provides years of trouble-free operation

AquaForce® 1000 Solids Handling Pump (Unit Weight: 10.6 lbs.)
#91011 MSRP \$199.98

AquaForce® 2700 Solids Handling Pump (Unit Weight: 11.5 lbs.)
#91012 MSRP \$249.98

AquaForce® 5200 Solids Handling Pump (Unit Weight: 15.4 lbs.)
#91013 MSRP \$399.98

40 Pumps

Tsurumi Solids Handling Skimmer and Pondless® Waterfall Vault Pump

Available in flow rates from 3,000 to 10,000 gallons per hour (11,350 to 37,800 liters per hour)

Tsurumi sets the standard when it comes to pumps. They are world-renowned for their quality, dependability and performance. Tsurumi pumps are ideal for use in Aquascape and other skimmer and falls filter systems as well as Pondless® Waterfall filter vaults.

Tsurumi PL Series Pumps

Tsurumi engineers have designed the Aquascape PL pump line to be hydraulically "dialed" into the head pressures found in water garden applications. This helps ensure that the pump is performing in it's ideal operating range, resulting in less vibration and wear and tear on the pump, ultimately resulting in longer life. Their horizontal design provides a perfect fit in Aquascape-style filters.

Tsurumi 3PL Pump (Unit Weight: 17 lbs.)
#29975 MSRP \$519.99

Tsurumi 5PL Pump (Unit Weight: 19 lbs.)
#29976 MSRP \$699.99

Tsurumi 9PL Pump (Unit Weight: 23 lbs.)
#29977 MSRP \$849.99

PN Series

Tsurumi PN Series Pumps

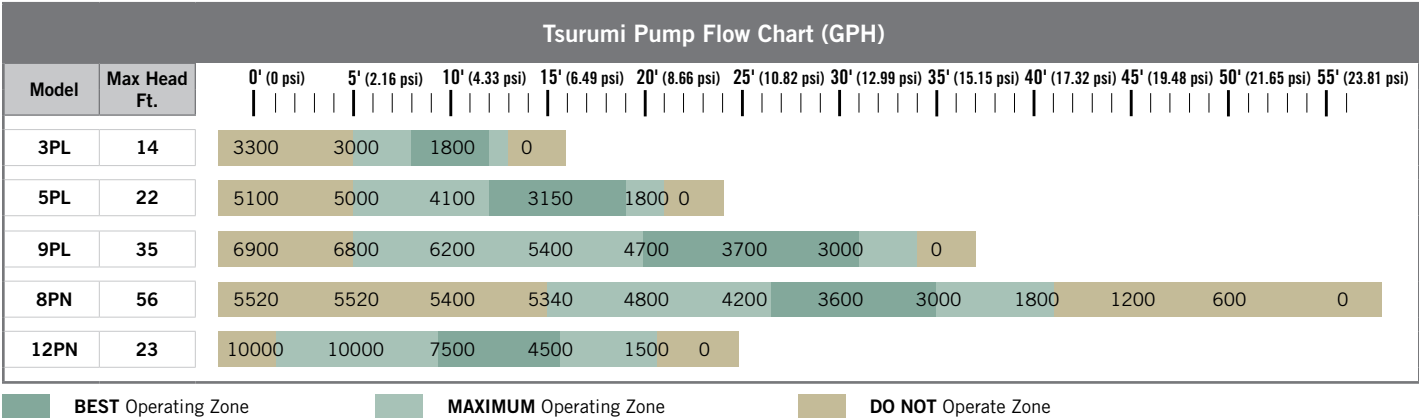

Tsurumi's PN series pumps have had a successful presence in the water feature market for more than a decade. The PN series provides a good match for filters that require a vertical style pump housing. The 8PN model provides good performance at high head heights and the 12PN provides high flow water performance on lower head applications.

Tsurumi 8PN Pump (Unit Weight: 29 lbs.)
#29495 MSRP \$799.99

Tsurumi 12PN Pump (Unit Weight: 31.9 lbs.)

AquascapePRO® Solids Handling Skimmer and Pondless® Waterfall Vault Pump

Available in flow rates from 3,000 to 10,000 gallons per hour (11,350 to 37,800 liters per hour)

AquascapePRO® pumps are ideal for use in Aquascape and other skimmer and falls filters systems as well as Pondless® Waterfall filter vaults.

Aquascape's horizontal pond pumps, from the AquascapePRO® line, are energy efficient and low maintenance. Quiet and efficient, these pumps have stainless steel construction, along with rubber feet to reduce vibration. With high head heights and a wide variety of flow rates to choose from there is sure to be an AquascapePRO® pump that fits your water gardens requirements.

42 Pumps

Ultra™ Pumps

Submersible fountain, waterfall and filter pump (available in flow rates from 400 to 2,000 GPH / 1,514 to 7,570 LPH)

Ultra™ Pumps are the complete solution for small ponds, fountains and water features. This all-in-one kit includes a three-way diverter valve and multi-size hose connection making it adaptable to almost any hose or tubing size. Ultra™ Pumps are ideal for supplying water to run fountains, water features, external filters and spitting ornaments.

- Extremely energy-efficient, saving hundreds of dollars over traditional water pumps
- Magnetically driven or "mag-drive" motor technology is simple and easy to maintain
- Durable prefilter cage design protects pump and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

400 GPH Ultra™ Pump (Unit Weight: 2.9 lbs.)
#91005 MSRP \$79.98

550 GPH Ultra™ Pump (Unit Weight: 3.3 lbs.)
#91006 MSRP \$99.98

800 GPH Ultra™ Pump (Unit Weight: 4.4 lbs.)
#91007 MSRP \$119.98

1100 GPH Ultra™ Pump (Unit Weight: 4.6 lbs.)
#91008 MSRP \$169.98

1500 GPH Ultra™ Pump (Unit Weight: 8.4 lbs.)
#91009 MSRP \$189.98

2000 GPH Ultra™ Pump (Unit Weight: 8.8 lbs.)
#91010 MSRP \$219.98

3-Year Limited Warranty

Ultra™

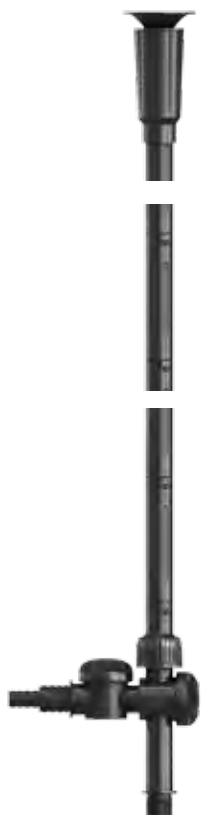

Ultra™ Pump Fountain Head Kit

Add a new dimension to the Ultra™ Pump with the simple addition of the Ultra™ Pump Fountain Head Kit.

Comes complete with three fountain heads and diverter valve to adjust the fountain height, as well as allows for the diversion of water to an external filter or waterfall.

Small - for the Ultra™ 400, 550 & 800 Pump (Unit Weight: .7 lbs.)
#91045 MSRP \$14.98

Large - for the Ultra™ 1100, 1500 & 2000 Pump (Unit Weight: .7 lbs.)
#91046 MSRP \$19.98

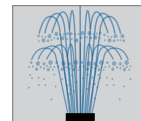

Foaming Jet Fountain

Waterbell Fountain

Daisy Fountain

- ① Protective pump input strainer cover and sponge filter prevents debris from damaging pump, thereby reducing maintenance and prolonging pump life
- ② Included three-way splitter with valve and multi-hose adapter makes the pump simple to connect almost all hose sizes
- ③ "Mag-drive" motor technology makes this pump energy efficient and simple to maintain
- ④ The wide, flat base and rubber feet make the pump stable and reduce vibration

replacement
parts available

Fittings Included

1/2" Valve

(Ultra 400, 550, 800)

3/4" 3-Way Valve

3/4", 1", 1.25"
Multi Hose Adapter

The Aquascape Ultra™ Pump will provide years of trouble-free operation when properly maintained. If your Ultra™ Pump stops working try cleaning the protective input strainer and sponge. Another tip is to remove and clean the impeller and impeller housing with a mild acid-like white vinegar and toothbrush. This will remove any white scale build-up and allow the pump to run like new again. Note: replacement impeller kits are available.

AquaJet™ Pumps

Submersible fountain, waterfall and filter pump (available in flow rates from 600 to 2,000 GPH / 2,271 to 7,570 LPH)

AquaJet™ fountain and filter pumps are the complete solution for small to medium-size ponds or ponds up to 4,000 gallons. This all-in-one kit provides a stunning water fountain with the choice of three included fountain heads. An integrated diverter valve supplies water to a small waterfall, external filters or spitting ornaments. Extremely energy-efficient, saving hundreds of dollars over traditional water pumps

- Magnetically driven or "mag-drive" motor technology is easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

AquaJet™ 600 Pump (Unit Weight: 5.5 lbs.)
#91014 MSRP \$199.98

AquaJet™ 1300 Pump (Unit Weight: 8.8 lbs.)
#91015 MSRP \$229.98

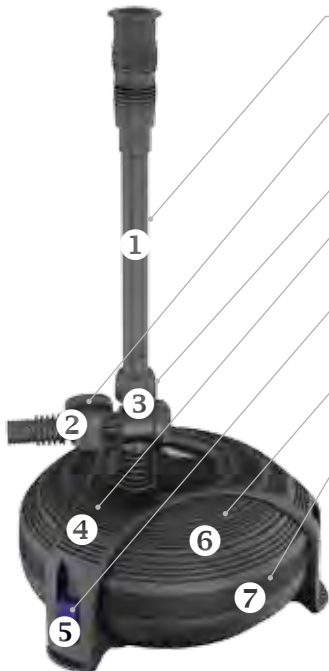

AquaJet™ 2000 Pump (Unit Weight: 9.7 lbs.)
#91016 MSRP \$299.98

parts available

- ① The adjustable riser stem makes it simple to adjust the fountain head to different heights (10" to 20") and/or depths
- ② Adjustable diverter and flow control allows water to be used for fountainhead, circulation, and additional equipment like spitters or external filters and waterfalls
- ③ The rotational riser stem fitting allows for simple adjustment or leveling of fountain heads
- ④ Protective pump cage prevents debris from clogging or damaging pump, thereby reducing maintenance
- ⑤ Simple pump cage clips make it easy to open the protective pump cage to perform pump maintenance or remove debris
- ⑥ Mag-drive motor technology makes this pump energy efficient and simple to maintain
- ⑦ Fine cage openings prevents fountain heads from becoming clogged

Statuary and Fountain Pumps

Submersible fountain, waterfall and filter pump (available in flow rates from 70 to 320 GPH / 265 to 1,211 LPH)

Aquascape Statuary and Fountain Pumps are perfect for running smaller decorative fountains. These high quality, "mag-drive" or magnetically driven water pumps are ideal for supplying water to run fountains, water features, external filters, spitting ornaments and indoor or outdoor water fountains. This combination of energy-efficient, mag-drive performance, and flow and ease of maintenance make this pump the ideal choice for discriminating water feature owners.

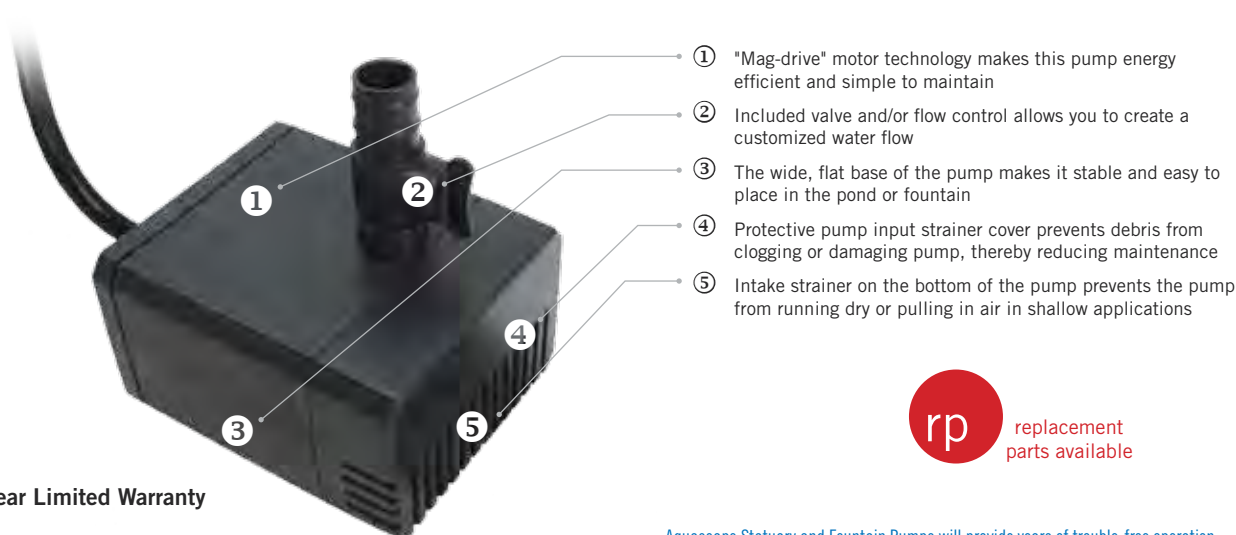

- Extremely energy-efficient
- Magnetically driven or mag-drive motor technology is simple and easy to maintain
- Durable pre-filter cage design prevents clogging and reduces pump maintenance
- Oil-free design prevents pond contamination
- Provides years of trouble-free operation

70 GPH Water Pump
(Unit Weight: 1.3 lbs.)
#91023 MSRP \$14.98

90 GPH Water Pump
(Unit Weight: 1.7 lbs.)
#91024 MSRP \$17.98

180 GPH Water Pump
(Unit Weight: 2 lbs.)
#91025 MSRP \$24.98

320 GPH Water Pump
(Unit Weight: 2.6 lbs.)
#91026 MSRP \$34.98

Aquascape Statuary and Fountain Pumps will provide years of trouble-free operation when properly maintained. If your Statuary and Fountain Pump stops working, try cleaning the protective input strainer and sponge. Another tip is to remove and clean the impeller and impeller housing with a mild acid-like white vinegar and a toothbrush. This will remove any white scale build-up and allow the pump to run like new again. Note: Replacement impeller kits are available

46 Pumps

2-Outlet and 4-Outlet Pond Aerators

Every process that happens in the pond is dependent on oxygen. This is especially important at night when plants are not converting sunlight into oxygen. Dissolved oxygen levels are also generally lower in warmer water temperatures. Pond aerators oxygenate your pond, helping all biological processes and create a more stable environment, resulting in healthier fish and plants. Aeration is also very important during winter months in colder climates, as aeration helps to keep a small hole open in the surface of the pond to aid in degassing.

- Extremely energy-efficient
- Quiet
- Simple to use and maintain
- Durable outer housing prevents damage
- Comes complete with winter resistant air line, preassembled check valves and weighted air stones
- Provides years of trouble-free operation

2-Outlet Pond Aerator (Unit Weight: 3.2 lbs.)
#75000 MSRP \$59.98

4-Outlet Pond Aerator (Unit Weight: 5.2 lbs.)
#75001 MSRP \$109.98

Video on
Pond Aerator

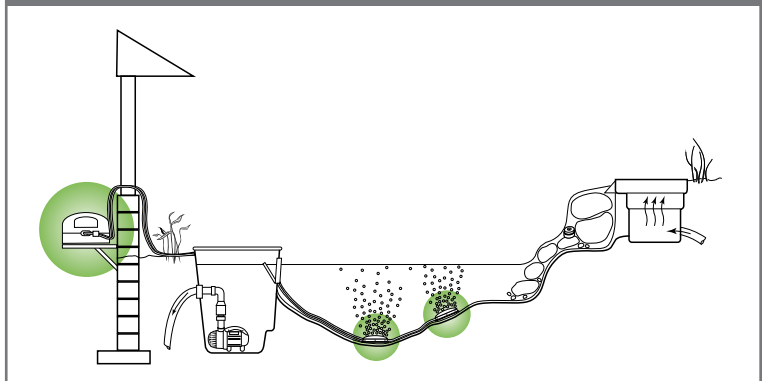

3-Year Limited Warranty

The 2-outlet and 4-outlet aerator pump should be placed in an indoor location dry and free from airborne dust and debris. If you notice that your pump is losing air pressure or simply doesn't work as well as when you purchased it, a simple, inexpensive renew kit is available. After installing the renew kit your pond aerator should be as good as new.

Pond Aerator Application

- ① The strong outer housing protects the pump from becoming easily damaged
- ② A thick rubber gasket separates the two halves of the air pump, reducing noise and preventing vibration
- ③ The wide, flat base of the pump makes it stable and easy to place
- ④ The integrated rubber feet prevent noise and vibration keeping the pump stable so there is no movement from its intended position
- ⑤ The replaceable diaphragm and assembly cartridge makes this pump simple and inexpensive to service

Pond Aerator PRO

Aquascape professional-grade aeration system is designed to help improve water circulation and increase oxygen throughout the pond. The Pond Aerator PRO system can also be used during the winter months where the bubbles created at the surface will keep a small hole open in the ice for oxygenation and the removal of possible harmful gases from the water.

- Comes complete with a weather-proof, outdoor-rated, energy-efficient 45-watt air pump
- High volume 2.1 CFM of air
- For ponds up to 10,000 gallons
- Includes one large 8-inch diameter aeration disc and 30-feet of 3/8" braided aeration tubing

rp replacement parts available

Winter Application

Remember to not place the air diffusers on the bottom of the pond during the winter, which may disrupt the natural thermocline found in the deeper portions of the pond where the fish are overwintering. Instead place the air diffusers about 1 to 1 1/2 ft. below the surface of the water.

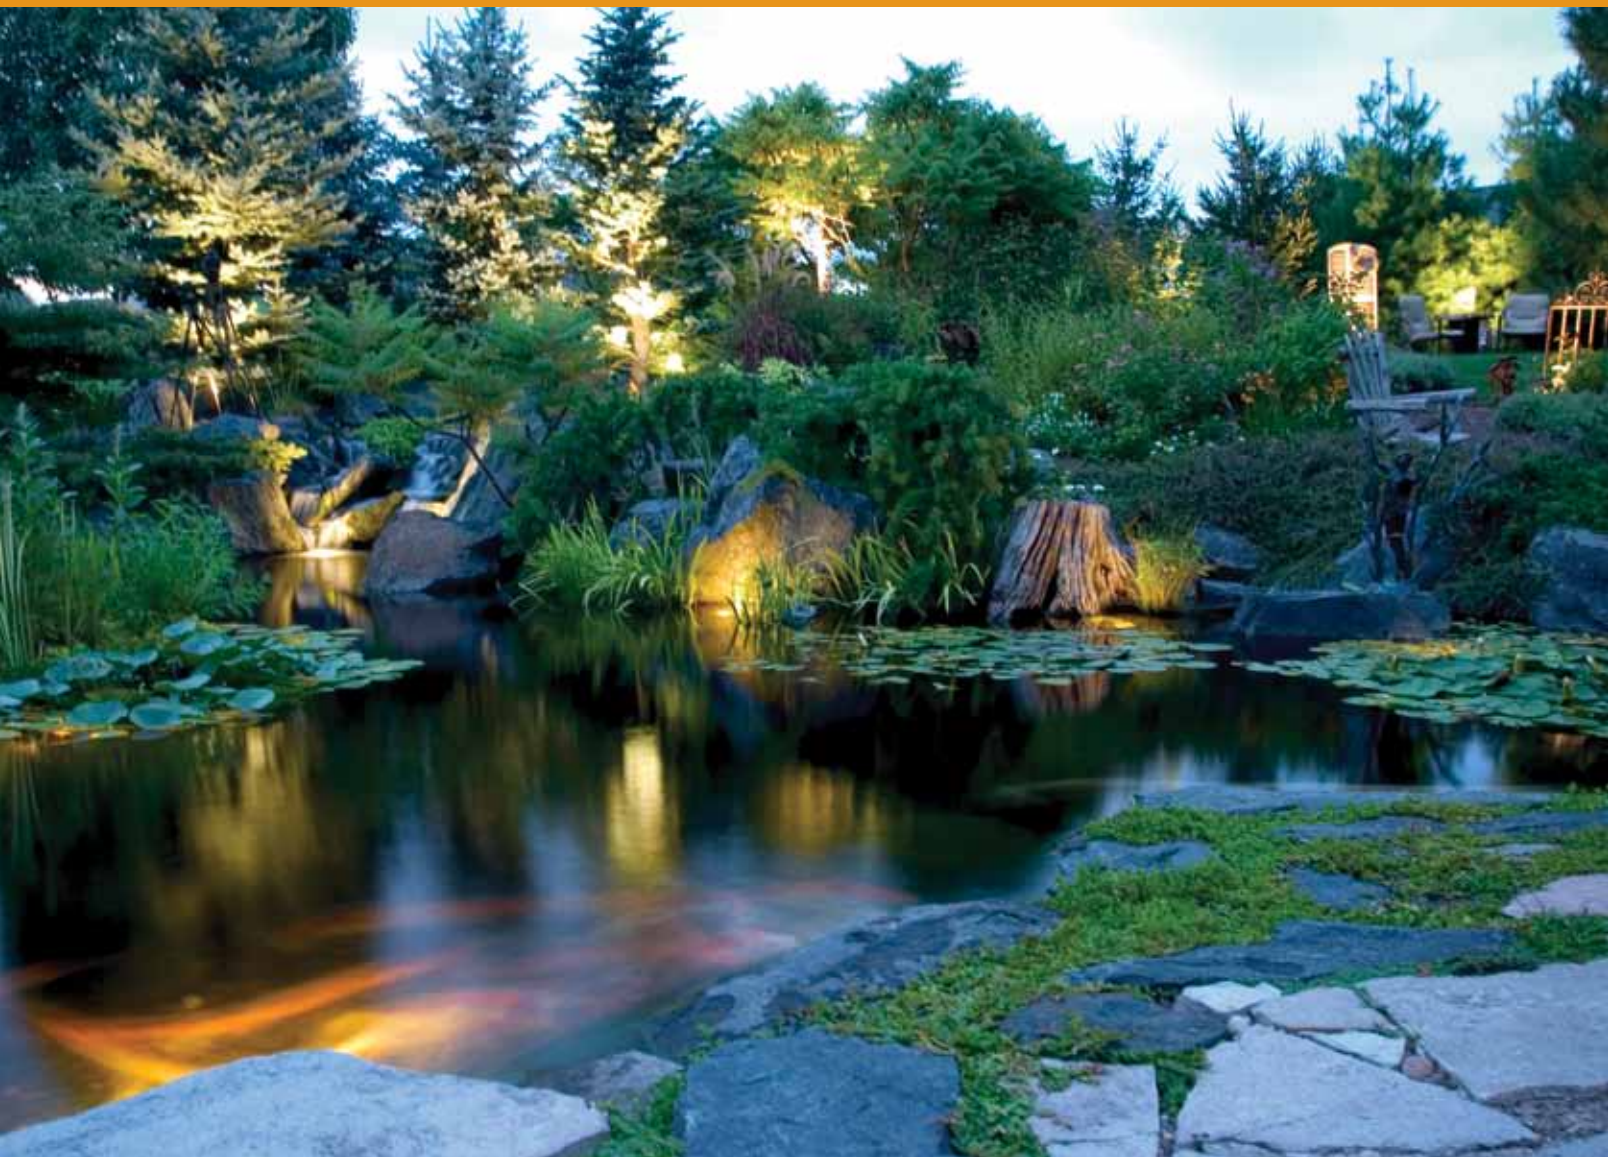

Pond Aerators can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

Lighting

Aquascape LED Pond and Landscape Lighting, combines style and simplicity. Our newest component fixtures feature a die-cast metal housing finished with a three-part brushed architectural bronze coating providing a durable finish that will hold up in all weather conditions. Aquascape LED pond and landscape lighting can be used fully submersed, or in traditional landscapes. All new 2014 Aquascape LED lights consist of permanently sealed watertight fixtures and are backed by a limited five-year full replacement warranty.

The advantages of Aquascape LED pond and landscape lighting

- LED lighting can save up to 90% in electrical cost compared to halogen lighting
- All new 2014 lighting includes a limited five-year full replacement warranty
- Warm natural-looking light color blends in easily with traditional halogen lighting

Aquascape LED Pond and Landscape Spotlight Kit 3-Watt

Aquascape Pond and Landscape Light Kit includes everything needed to create a beautiful nighttime focal point in any water garden or traditional landscape. The small compact design allows for installation in even the tightest spaces.

Kit includes:

- Three pre-wired 1-watt LED injected molded lighting fixtures
- 6-watt /12 V transformer
- Automatic on/off photo cell with integrated timer
- Limited five-year full replacement warranty

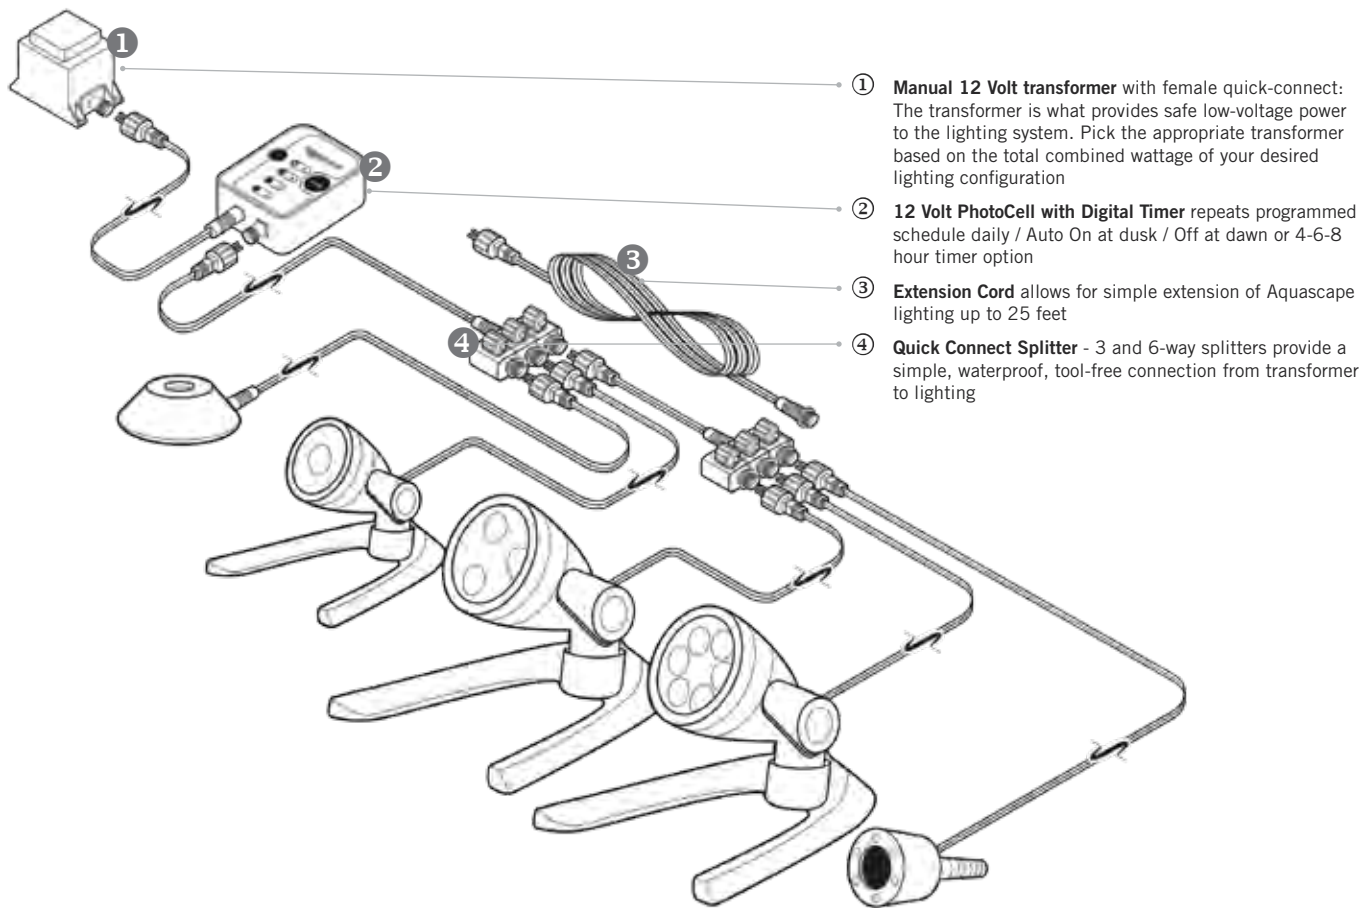

Features and benefits:

- Light output is equivalent to a 10-watt halogen light
- 40,000 hour bulb life
- Features a powerful 1-watt LED diode
- Natural warm color light output 3500K

(Unit Weight: 4 lbs.)
#84030 MSRP \$119.98

Video on
Light Kit

Design Your Own Aquascape LED Lighting System

Select the right transformer for your Aquascape Lighting Components

Step 1: Calculate the power consumption by adding the wattage of all the Aquascape lights selected for installation.

Step 2: Take the total wattage and add 10% to compensate for fluctuations in wattage, or just jump up to the next size transformer. Aquascape transformers will only consume the necessary wattage to power your lighting. Having a transformer with extra voltage will give you power if additional lighting components are added in the future.

Step 3: Select the appropriate transformer, accessories and lighting components.

Enjoy your new Aquascape lighting!

Water Treatments

Combining science with simplicity, Aquascape's complete line of **Water Treatments** makes it simple to maintain a healthy, well-balanced water garden. Aquascape's pump-top liquid bottles and bubble tabs make dosing simple and affordable. Put away your calculators and enjoy a clean, clear, healthy pond with the complete line of Aquascape water treatment products.

simple

Scientifically formulated

- Simple to use dosing system
- Simple to use application rates

AquascapePRO® Water Treatments

- 25% more concentrated than the consumer equivalent product
- Measuring cups make it easy to apply larger doses
- Dosage guide on measuring cup for easy application

See page 62-63 for professional line of water treatments

Maintain

Balance

Aquascape Beneficial Bacteria for Ponds provides clean, clear and healthy water conditions and reduces pond maintenance.

- Contains eight pure strains of concentrated beneficial bacteria.
- Effective at reducing sludge, uneaten fish food, fish waste, dead and decaying plant material and excess nutrients that cause poor water quality and clarity
- Safe for fish, plants, pets and wildlife

#81016 MSRP \$24.98

450 g./15 oz. (Unit Weight: 1.7 lbs.)

#81017 MSRP \$39.98

- Always feed koi from the same place so that fish start to recognize who you are and that you are about to feed them
- Make sure not to make sudden movements when hand feeding, as this may frighten koi
- When hand feeding, slowly place half of the food into the pond to get the fish used to coming to the surface to feed, this will also get the fish used to the smell and taste of their new treat
- Remember, whenever offering a new food, fish need a chance to recognize new shapes and smells as something to eat. Be patient and before you know it your fish will come rushing towards you to receive their delicious Aquascape Koi Krunchies treat

Koi Krunchies

Made With Natural Citrus Flavors

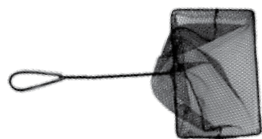

Aquascape Koi Krunchies are a wonderful addition to your fish's regular diet. Koi Krunchies are ideal for hand feeding goldfish, koi and other pond fish. Aquascape Koi Krunchies contain real fruit flavors and are a great source of vitamin C, which is linked to proper tissue formation, proper digestion and disease resistance.

- Great for hand feeding all pond fish
- Contains quality natural ingredients
- Great source of vitamin C

Mini Pond Net

This net is best suited for small ponds or container water gardens.

10" x 7" with 12" Handle (Unit Weight: .2 lbs.)
#98556 MSRP \$7.98

Pond Net With Extendable Handle (Small)

This small 12" x 7" net is great for tight spaces or ideal for children to lend a helping hand.

32" handle, extends to 63" (Unit Weight: .6 lbs.)
#98558 MSRP \$15.98

Pond Skimmer Net With Extendable Handle (Small)

This small 12" x 7" net is great for scooping up small debris in tight spaces.

32" handle, extends to 63" (Unit Weight: .6 lbs.)
#98559 MSRP \$15.98

Pond Net With Extendable Handle (Heavy Duty)

Our Best Value Pond Net

This heavy duty pond net is great for general maintenance as well as the addition and removal of larger pond fish. The strength of this quality net allows for the removal of large amounts of debris, cutting down on maintenance time.

36" handle, extends to 69" (Unit Weight: 1.4 lbs.)
#98560 MSRP \$29.98

Pond Skimmer Net With Extendable Handle (Heavy Duty)

Our Best Value Pond Skimmer Net

This heavy duty skimmer net is great for general maintenance. The strength of this quality net allows for the removal of large amounts of debris, cutting down on maintenance time.

36" handle, extends to 63" (Unit Weight: 1.4 lbs.)
#98562 MSRP \$29.98

Pro Fish Net With Extendable Handle

This net is specifically designed to handle and cradle larger pond fish including koi. The super soft netting and shallow design prevents fish from being snagged in the mesh. This style of net is a must for the pond owner with larger fish.

22" diameter head, 36" handle, extends to 69"
 (Unit Weight: 2.1 lbs.)
#98561 MSRP \$34.98

Professional Grade Pond Nets

AquascapePRO® pond nets are designed and built for professional pond maintenance crews. Nets include a heavy-duty, 3-foot handle that collapses for storage, allowing for safe transport from one pond to the next.

Two versions to choose from:

- **Professional Grade Pond & Fish Net** is great for removal of large fish and a variety of debris
- **Professional Grade Pond Skimmer Net's** fine mesh is ideal for removing small floating and suspended debris from the pond water

Professional Grade Pond & Fish Net (Unit Weight: 2 lbs.)
#50000 MSRP \$59.99

Professional Grade Pond & Debris Skimmer Net (Unit Weight: 2 lbs.)
#50001 MSRP \$59.99

Collapsible Fish and Skimmer Nets

The Collapsible Fish and Skimmer Nets include quick-latch, telescoping handles that extend to 35" and completely fold down for compact storage.

Two versions to choose from:

- **Collapsible Fish Net** - (17"-Black Coarse Mesh) has tangle-free mesh and glides quickly through the water making it an ideal net for catching and handling fish
- **Collapsible Skimmer Net** - (17"-White Fine Mesh) tangle-free net catches even the smallest debris, making it ideal for quick and easy removal of leaves and other debris

Collapsible Fish Net 17" Black Coarse Mesh (Unit Weight: 1.1 lbs.)
#81031 MSRP \$29.98

Collapsible Skimmer Net 17" White Fine Mesh (Unit Weight: 1.1 lbs.)
#81032 MSRP \$29.98

Ulcer & Bacterial Treatment (Dry)

Used For the Treatment of Bacterial Infections, Fin Rot, Open Sores and Ulcers

Bacterial infections and ulcerations are primarily a secondary infection resulting from external damage caused by parasites, physical damage caused by improper netting or rough handling. Most disease problems or issues may possibly be linked back to poor water quality or introduction of sick or stressed fish. Before adding any medication to your pond or holding system, make sure and verify all water parameters and rectify any issues before treatment.

250 grams/8.8 oz.
(Unit Weight: 0.6 lbs.)

#81038 MSRP \$14.98

Parasite & Ich Treatment (Liquid)

Used For the Treatment of External Protozoan Parasites Including, Freshwater / Saltwater Ich, Costia and Trichodenella

It is important to treat immediately after noticing the first signs of a parasite problem on your pond fish. Common symptoms include fish quickly rubbing or flashing against surfaces within the pond. White spots that look like grains of salt or larger stuck to the surface of the fish.

Common issues that should be avoided include water temperature fluctuation, poor water quality and/or fish stress.

250 ml/8.5 oz.

(Unit Weight: 0.6 lbs.)

#81039 MSRP \$14.98

Fungus Treatment (Liquid)

Used For the Treatment of Fungus External Protozoan Parasites Including, Freshwater / Saltwater Ich, Costia and Trichodenella

It is important to treat immediately after noticing the first signs of fungus or a parasite problem on your pond fish. Common symptoms include white, green or grey cottony looking patches, fish quickly rubbing or flashing against surfaces within the pond. White spots that look like grains of salt or larger stuck to the surface of the fish.

Common issues that should be avoided include water temperature fluctuation, poor water quality and/or fish stress.

250 ml/8.5 oz.

(Unit Weight: 0.6 lbs.)

#81040 MSRP \$14.98

Praziquantel Treatment (Liquid)

Used For the Treatment of External and Internal Parasites, Flukes, Flatworms and Tapeworms

Praziquantel is known to be one of the safest most effective pond fish medications available for treating a vast array of external and internal parasites. It will not stress pond fish, damage filtration systems, or negatively affect the balance of your pond. One of the biggest advantages in large ponds is that water changes are not necessary and it only takes one treatment.

250 ml/8.5 oz.
(Unit Weight: 0.6 lbs.)

#81041 MSRP \$24.98

Pond Salt

Reduces the Effects of Nitrite Levels Toxic to Fish

- Helps restore natural electrolytes
- Repairs natural slime coat
- Prevents disease

1 container contains up to 8 scoops
treats up to 800 gal./3,027 liters
(Unit Weight: 2.5 lbs.)

#99416 MSRP \$11.98

1 container contains up to 29 scoops
treats up to 2,900 gal./10,974 liters
(Unit Weight: 9.5 lbs.)

#99417 MSRP \$32.98

1 container contains up to 130 scoops
treats up to 13,000 gal./49,205 liters
(Unit Weight: 40 lbs.)

#40003 MSRP \$49.98

Medicated Fish Food (Dry)

Treats Internal and External Bacterial Infections

Feeding Medicated Fish Food is an excellent way of treating a vast array of internal and external bacterial infections including fungal infections. Why treat the water when you can treat the fish!

- Treats bacterial infections effectively
- Targeted treatment
- Extremely palatable
- Treats gram-negative and gram-positive bacteria, mouth rot and ulcers

500 grams/17.63 oz.
(Unit Weight: 1.2 lbs.)

#81042 MSRP \$17.98

Fish Symptom	Possible Problems	Treatment
Erratic movement, flashing or rubbing on rocks and surfaces throughout the pond	- Parasite Problem	• Aquascape Parasite & Ich Treatment • Aquascape Praziquantel Treatment • Aquascape Pond Salt
Growths that look like “cotton balls”	- Fungal Infection	• Aquascape Fungus Treatment
Open wounds or ulcers	- Bacterial Infection	• Aquascape Ulcer & Bacterial Infection Treatment • Aquascape Medicated Fish Food
Fins appear to be rotting away	- Fin Rot - Bacterial Infection	• Aquascape Ulcer & Bacterial Infection Treatment • Aquascape Medicated Fish Food • Aquascape Pond Salt
Red streaks in the fins	- Bacterial Infection - Parasite Problem - Ammonia Poisoning	• Aquascape Parasite & Ich Treatment • Aquascape Praziquantel Treatment • Aquascape Medicated Fish Food • Aquascape Pond Salt and water change using Aquascape Pond Detoxifier
Small, white spots that look like salt stuck to the body of the fish	- Ich - Parasite problem	• Aquascape Parasite & Ich Treatment • Aquascape Pond Salt
Gasping at the surface of the water	- Oxygen Depletion	• Aerate the pond and agitate the pond surface • Reduce fish load
Bulging eyes	- Bacterial Infection	• Aquascape Ulcer & Bacterial Infection Treatment • Aquascape Medicated Fish Food
Scales protruding from a swollen body like a pine cone	- Dropsy - Bacterial Infection	• Difficult to treat; treat the pond as a preventative measure • Aquascape Ulcer & Bacterial Infection Treatment
Difficulty swimming underwater floating at the surface upright	- Swim Bladder Disease	• If the fish is still feeding, feed fish with canned peas or a Spirulina-based fish food
Red or swollen gills	- Parasite Problem	• Aquascape Parasite & Ich Treatment • Aquascape Praziquantel Treatment • Aquascape Pond Salt

Most fish issues can be avoided by following a few simple, preventative measures:

- **Understand Your Water Quality** - The majority of issues are caused by poor water quality. Make sure that the fish population is under control and don't be afraid to do partial water changes often and consistently. Make sure when adding water, or when doing a partial water change, that you treat the water with Pond Detoxifier to eliminate chlorine/chloramines and chelate heavy metals. Aerating pond water is also something that can potentially increase water quality dramatically.
- **Buy Your Fish From a Responsible Retailer** - Never buy sick fish and, if possible, quarantine fish for a few days before adding them to your pond. Always ask how long the retailer has had the fish. If they have just received them in, ask the retailer to hold the fish for a few days to make sure the fish recovers from stress related to transport and new water chemistry.
- **Keep a Close Eye on Your Fish** - If any signs of disease are seen, start using Pond Salt immediately and start feeding with medicated fish food. If things look like they are getting worse, immediately treat the pond with the appropriate treatment. The longer you wait to treat the problem, the less chance you have of saving your fish.

- **Test Your Water** - Test it yourself or have your local retailer test it for any signs of a problem. It is also important to test the water coming directly from your tap as it is increasingly common to have issues including ammonia coming directly from your source water.

- **Feed Your Fish a High-Quality Food** - Feeding a high-quality food will not affect water quality and will ensure that your fish are getting all the vitamins and nutrients they need to maintain proper health. Be sure to feed often and consistently.

Before treating any potential problem with your fish, it is important to make sure that you are using the correct treatment, dosage or treatment rate to prevent any recurrence.

Remember, prevention is the best cure. The easiest way to avoid disease problems is to maintain optimum water conditions. Feeding a quality diet and adding beneficial bacteria on a regular basis will help maintain a balanced Ecosystem. Disease problems must be addressed in the early stages to be successful.

Plant Care

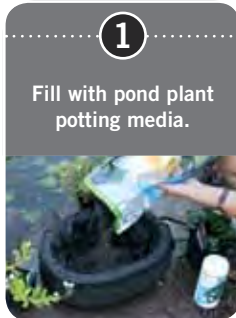

Floating Plant Island

Display plants in deeper areas of the pond where there are no plant shelves

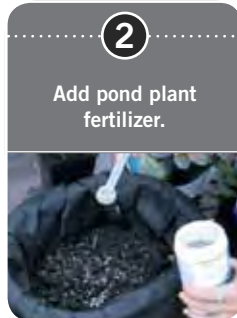

Aquascape's Floating Plant Island is ideal for displaying plants in deeper areas of the pond or where there are no plant shelves. The floating planter keeps the soil intact and lets water in while protecting plants from fish. Constructed to stay afloat at the surface of the pond, the Aquascape Floating Plant Island provides stunning options for displaying plants within the pond.

15" L x 11" W x 4" H (Unit Weight: .4 lbs.)
#89006 MSRP \$27.98

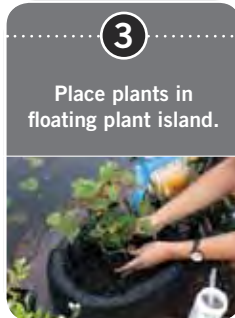

1

Fill with pond plant
potting media.

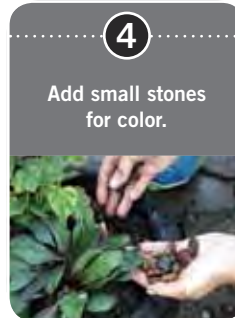

2

Add pond plant
fertilizer.

3

Place plants in
floating plant island.

4

Add small stones
for color.

ENJOY!

Aquatic Planters

Aquascape Aquatic Planters are ideal for all pond plants. Made from fine, porous material, the planters allow water in while preventing soil from entering your pond. The flexibility of Aquatic Planters makes it simple to place plants between rocks and other form-fitting areas. Aquatic Planters blend into their surrounding and will not break or crack like traditional plastic planters.

- Can be molded to fit in tight spaces
- Will not break or crack
- Keeps soil from escaping

Aquatic Plant Pot 6" x 6" (2 Pk.)
 (Unit Weight: .1 lbs.)
#98501 MSRP \$3.98

Aquatic Plant Pot 8" x 6" (2 Pk.)
 (Unit Weight: .1 lbs.)

(Unit Weight: 40 lbs.)
#58080 MSRP \$549.99

Kit includes
LED Waterfall
Accent Light

1

Connect the plumbing.

2

Position the spillway
in the wall.

3

Level the unit and
finish the wall.

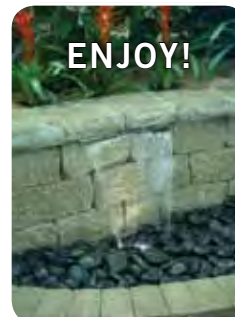

4

Fill the basin with water
and plug in the pump.

ENJOY!

Designed to take the guesswork out of installing fountain rocks, hand-carved stone, brass fountains, and bubbling urns. The **AquaBasin®** is a great way for anyone to quickly and easily install these popular styles of water features. Can accommodate all Ultra™ Pumps.

AquaBasin® Features:

- Professional grade, high-density polyethylene, double walled structure gives it superior strength and weight distribution
- Extra large water capacity means less maintenance
- Pump access panels allow access for maintenance
- Pre-drilled hole in the center makes it easy to hook up plumbing
- Designed for maximum strength when backfilling and positioning decorative pieces

A. AquaBasin® Large

- 75-gallon water storage capacity
- 18-inch diameter recess allows for larger pieces to be backfilled in order to increase stability
- Maximum weight capacity - 1,200 lbs.
- Two 9" x 16" pump access panels
- Can accommodate Magnetic Driven Ultra™ Pumps totaling up to 4,000 GPH

45" L x 45" W x 14" H (Unit Weight: 46.5 lbs.)
#98134 MSRP \$479.98

B. AquaBasin® Medium

- 40-gallon water storage capacity
- Ideal reservoir for Aquascape's Paver Fountains and WaterWall Spillway
- 8.5" diameter pump access opening with lid
- Maximum weight capacity - 1,200 lbs.
- Can accommodate pumps up to 2,000 GPH

24" L x 24" W x 16" H (Unit Weight: 20 lbs.)
#76004 MSRP \$279.98

C. AquaBasin® Small

- 40-gallon water storage capacity
- Maximum weight capacity - 350 lbs.
- One 9" x 16" pump access panel
- Can accommodate Magnetic Driven Ultra™ Pumps totaling up to 2,000 GPH

30" L x 30" W x 10" H (Unit Weight: 17 lbs.)
#98469 MSRP \$279.98

Patio Basin

Allows for a decorative fountain installation above the ground

The Aquascape Decorative Patio Basin allows for the above ground installation of decorative fountains that normally require a reservoir that would need to be dug into the ground. The above ground application allows for DIY placement into decks, patios or indoors in minutes. The low maintenance decorative deck can accommodate pebbles or rocks to add a decorative touch and create a contrasting focal point.

- 18-gallon water storage capacity
- Maximum weight capacity 100 lbs.
- Can accommodate magnetic driven Ultra Pumps up to 550 GPH

Natural Limestone (Unit Weight: 122 lbs.)
#76000 MSRP \$349.98

Burnt Umber (Unit Weight: 122 lbs.)
#78191 MSRP \$349.98

Fountain Shims

Ideal for leveling resin, concrete or GFRC water fountains or features.

4.5" L x .75" W
Set of 6 (Unit Weight: 1.6 lbs.)
#78159 MSRP \$4.98

Decorative River Pebbles

- Easy to carry 22 lb. bags are ideal for decorative fountain applications
- Pre-washed and polished
- Two colors to choose from - Black River Pebbles and Mixed River Pebbles
- Stone dimensions – 3-5 inch diameter mix
- Each 22 lb. bag covers approximately 1.5 sq. ft. of surface

Black Pebbles 10 kg. – 3"-5" (Unit Weight: 22 lbs.)
#78160 MSRP \$19.98

Mixed River Pebbles 10 kg. – 3"-5" (Unit Weight: 22 lbs.)
#78161 MSRP \$19.98

AquaBasin® Mini

Aquascape AquaBasin® Mini makes it simple to have a water feature in almost any setting. Can accommodate pumps up to 350 GPH.

AquaBasin® Mini Features:

- Light weight and durable
- Can be used indoors or outdoors
- Basin holds 8 gallons of water
- Quick and easy to install
- Provides easy pump access
- Maximum weight capacity: 50 lbs.

(Unit Weight: 6.5 lbs.)
#98924 MSRP \$39.98

DecoBasin

Aquascape DecoBasin comes complete with water reservoir and splash skirt. Can accommodate pumps up to 1,500 GPH.

DecoBasin Features:

- Light weight and durable basin
- 54" splash skirt prevent leakage or over splash
- Basin holds 15 gallons of water
- Quick and easy installation
- Large center hole provides easy pump access
- Maximum weight capacity: 50 lbs.

(Unit Weight: 9 lbs.)
#60000 MSRP \$79.98

Pond De-Icer

300-Watt Pond De-Icer

Now comes with a 3-year limited warranty

Aquascape stainless steel Pond De-icer is ideal for keeping a small hole opening in the ice during cold winter months, and ensures proper gas exchange helping keep fish alive during the winter.

- Prevents winter fish loss
- Keeps a small hole in the ice during winter months
- Helps increase pond oxygen levels
- Stainless steel construction prevents corrosion and cracking
- Low cost to operate
- Built-in LED light indicates when heater is in use

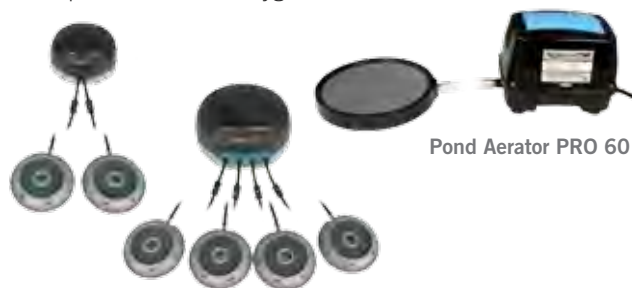

(Unit Weight: 3 lbs.)

#39000 MSRP \$129.98

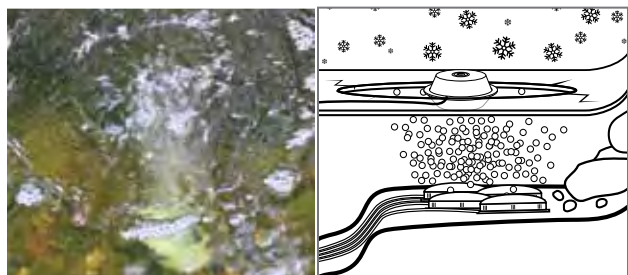

Pond Aeration

Pond aerators can also be used during the winter months where the bubbles created at the surface can help keep a small hole open in the ice for oxygenation.

2 and 4-Outlet Pond Aerators

See pages 46 and 47 for more information on the Pond Aerators

AquaForce® Pumps Great for Winter De-icing

The fact that the AquaForce® can be submerged directly in the pond also makes it a great pump to be used as a winter de-icer. The AquaForce's powerful flow of water positioned just below the surface of the pond will keep a hole open in the ice and ensure critical oxygen levels are maintained in the pond during the cold winter months.

See pages 36 and 37 for more information on the AquaForce®

Protective Pond Netting

Aquascape Protective Pond Netting keeps predators out while also catching leaves and falling debris before they enter the pond. The reusable netting is easy to install and resists tearing. Complete with 14 stakes to secure netting in place.

- Keeps falling leaves and debris from entering the pond
- Protects fish by keeping predators out
- Comes complete with stakes to secure netting into place
- Quality woven poly material resists tearing
- Reusable

7' x 10' (Unit Weight: .6 lbs.)
#98000 MSRP \$8.98
 14' x 20' (Unit Weight: 1.1 lbs.)
#98001 MSRP \$19.98
 28' x 30' (Unit Weight: 2.3 lbs.)
#98002 MSRP \$49.98

Blue Heron Decoy

Deter herons from coming to your pond by tricking them into thinking another heron is already there.

- Looks life-like!
- Quick and easy set-up
- Hand-painted with non-fading, non-glare, all-weather paint
- Surface treated to prevent paint flaking
- Molded from durable, lightweight polymer

29" L x 7.5" W x 43" H
(Unit Weight: 3 lbs.)
#81030 MSRP \$44.98

Pond Thermometer

Monitor pond temperature throughout the year to help adjust fish feeding and water treatment applications during seasonal changes.

(Unit Weight: 0.2 lbs.)
#74000 MSRP \$7.98

Floating Alligator Decoy

Add a little fun to your pond while protecting your valuable fish. The natural body movement will deter herons and other predators from visiting your pond.

- Natural body movements safely deter pond predators
- Three hinged body parts allow gator to float freely and appear lifelike
- Detailed in non-fading, non-glare, all-weather paint

(Unit Weight: 2.7 lbs.)
#93000 MSRP \$44.98

Installation Tools

Aquascape **Water Fill Valves** automatically add water to features when needed.

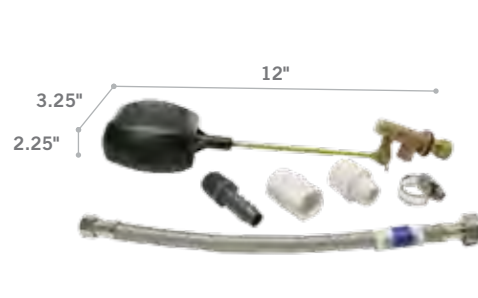

- Reduces time-consuming maintenance versus manually filling with a hose
- Helps protect pump from running dry
- Better for pond ecosystems by adding small amounts of water as needed, eliminating large water chemistry swings (including chlorine/chloramine levels) that occur during manual top-offs

Compact Water Fill Valve

- Up to 1.5 gallons per minute flow rate at a working pressure of 0-100 PSI
- Small size allows it to fit into any skimmer filter, Pondless® Waterfall Vault or decorative water feature application
- Includes fittings to connect to a standard garden hose, 1/4" poly-pipe, 1/2" poly-pipe, 1/2" pvc pipe (pipe sold separately)

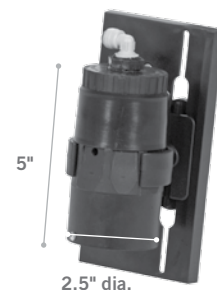

(Unit Weight: .3 lbs.)
#88006 MSRP \$29.99

Water Fill Valve 200

- Up to 3 gallons per minute flow rate at a working pressure of 0-100 PSI
- Reliable mechanical arm style fill valve
- Brass hardware with poly float
- Includes fittings to connect to 1/2" poly-pipe or 1/2" pvc pipe (pipe sold separately)

(Unit Weight: .7 lbs.)
#29272 MSRP \$39.98

Hudson Water Fill Valve

- Up to 1.5 gallons per minute flow rate at a working pressure of 8-65 PSI
- Works great in the Signature Series™ Skimmers and the Pondless® Waterfall Vault
- Mounting plate allows 4-inch setting adjustments
- Includes quick-connect fitting for 1/4" poly pipe
- Can also be used with 1/2" poly or 1/2" pvc by using the Fill Valve Irrigation Conversion Kit (Item #01008)

(Unit Weight: 1.2 lbs.)
#29469 MSRP \$79.99

Aquascape Water Fill Valves Specs					
Item #	Model	Flow Rate	Plumbing Size	Working PSI	Dimensions

#29470 MSRP \$39.99

Economy Foam Gun Applicator

We've added an economy model of our popular professional-grade Foam Gun. This lower-priced Foam Gun provides an attractive price point so that all contractors, no matter how many features they build, can afford to add a foam gun to their pond-building tool kit. To be used with Black Waterfall Foam cans.

(Unit Weight: 1.1 lb.)
#54003 MSRP \$42.99

Professional Foam Gun Kit

Includes everything needed for Professional Waterfall Foam application in a durable custom fit toolbox. Professional Foam Gun applicator allows exact dispersion of expanding black foam for sealing waterfalls.

Kit includes:

- (1) Case
- (3) 24 oz. Cans Black Waterfall Foam
- (1) Professional Grade Foam Gun
- (1) Can Cleaner

Replacement Gun available

(Unit Weight: 13.5 lbs.)
#22013 MSRP \$359.99

Installation Kit

Kit includes:

- (1) Liner Patch
- (1) Christy's Red Hot Blue Glue
- (1) Tube of Black Silicone Sealant
- (1) 16 oz. Can of Do-it-Yourself Black Waterfall Foam

Individual kit items may be purchased separately.

See items on these pages for details.

(Unit Weight: 2.2 lbs.)
#22008 MSRP \$32.99

Foam Gun Cleaner

A handy cleaner to flush the foam gun clean if it is not working properly. It will also remove uncured foam.

(Unit Weight: 1.1 lbs.)
#22011 MSRP \$29.99

Black Waterfall Foam

24 oz. can of expandable Black Waterfall Foam. Equivalent to 5 Do-it-Yourself Black Waterfall Foam cans. To be used with foam guns (sold separately).

(Unit Weight: 2.2 lbs.)
#30096 MSRP \$29.99

DIY Black Waterfall Foam

Easy to use for the beginner or do-it-yourselfer. Convenient and economical for the quick touch-up on a larger project. Also sold as part of our installation kit.

(Unit Weight: 1.2 lbs.)
#21053 MSRP \$19.98

Black Silicone Sealant

- Used for sealing joints where liner attaches to biofilter snout and the skimmer faceplate
- Fish Safe

4.7 oz. tube (Unit Weight: .4 lbs.)
#22010 MSRP \$5.98

10.1 oz. tube (Unit Weight: .6 lbs.)
#29186 MSRP \$9.99

Christy's Red Hot Blue Glue

The original all-weather, wet or dry PVC cement.

(Unit Weight: .4 lbs.)
#29969 MSRP \$7.99

EPDM Liner Patch

This 6" self adhesive patch quickly repairs accidental cuts in liner.

(Unit Weight: .1 lb.)
#22018 MSRP \$8.98

EPDM Liner Cover Tape

(one sided)

6" x 25' (Unit Weight: 5.8 lbs.)
#22003 MSRP \$129.99

6" x 100' (Unit Weight: 20 lbs.)
#22005 MSRP \$249.99

EPDM Liner Seam Tape

(two sided)

3" x 25' (Unit Weight: 1.5 lbs.)
#22017 MSRP \$52.99

3" x 100' (Unit Weight: 7.8 lbs.)
#22020 MSRP \$129.99

Firestone® QuickPrime Plus- EPDM Liner Seaming Tape Primer

QuickPrime Plus is designed to clean and prime EPDM liner prior to seaming.

1 quart/0.95 liters (Unit Weight: 1 lb.)
#54008 MSRP \$49.99

Firestone® QuickScrubber Kit

Kit consists of 30 scrub pads and 4 holders designed for the application of QuickPrime Plus seaming tape primer.

(Unit Weight: .75 lbs.)
#54009 MSRP \$39.99

Firestone® QuickSeam Pond Liner Repair Kit

Allows easy repair of up to two holes in EPDM liner.

Kit includes:

- (2) 6" x 6" QuickSeam patches
- (1) Bottle of LVOC Primer (2 oz./57 ml.)
- (1) Scrubber pad
- (1) Patch roller
- (1) Pair disposable gloves

(Unit Weight: .5 lbs.)
#42023 MSRP \$34.99

RainXchange® Systems

Why Rainwater Harvest?

The RainXchange® System is a sustainable solution for water conservation and stormwater management
The RainXchange® System by Aquascape is a revolutionary design that combines a recirculating decorative water feature with a sub-surface rainwater harvest storage system.

- Clean, Filtered Water Storage - While you enjoy the benefits of a decorative water feature, the RainXchange® System filters the stored water providing access to clean, clear, usable water.
- The RainXchange® System reveals only a beautiful water feature that integrates easily into existing landscapes.
- Locating and storing water underground maintains the integrity and beauty of your home and landscape.
- Capturing rainwater to operate the water feature creates true self-sustainability, drastically reducing the need for traditional water sources.

How Can You Use The Rainxchange® System?

Landscape irrigation
for your lawn and
flower beds

Manage stormwater
and decrease flooding

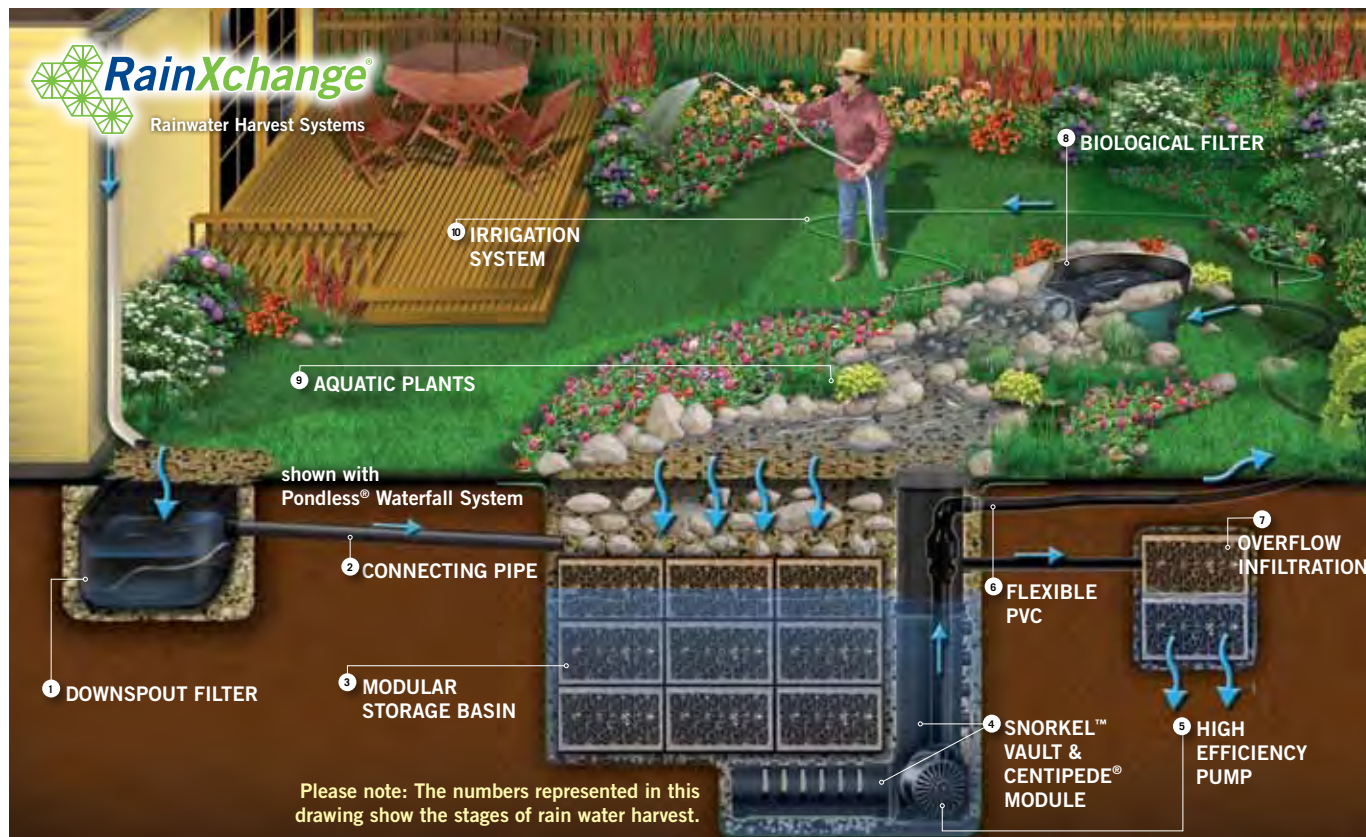

Topping off water
features, swimming
pools & hot tubs

Washing your car,
patio or deck

Toilet and laundry
water supply

How The Rainxchange® System Works:

① DOWNSPOUT FILTER

Captures and removes pollutants flushed into the system during a rain event

② CONNECTING PIPE

Carries the water, via gravity, to the modular storage basin (sold separately)

③ MODULAR STORAGE BASIN

Modular design can be configured to fit a wide variety of applications and settings. EPDM rubber membrane creates a water-tight basin

④ SNORKEL™ VAULT & CENTIPEDE® MODULE

Optimum water utilization within the system and a convenient access point for yearly maintenance and cleaning

⑤ HIGH-EFFICIENCY PUMP

⑥ FLEXIBLE PVC PIPE

⑦ OVERFLOW INFILTRATION

Excess rainwater is sent to a storage area that facilitates the infiltration of water into deeper soils and aquifers

⑧ BIOLOGICAL FILTRATION

Beneficial bacteria and enzymes reduce organic waste and pollutants to less toxic substances that can be absorbed by plants

⑨ AQUATIC PLANTS

Providing food and shelter for a great number of birds, insects and amphibians and the cornerstone for maintaining biodiversity

⑩ IRRIGATION SYSTEM

Natural water is loaded with micronutrients and compounds that will make plants flourish

Downspout Filter

A successful rainwater harvesting project relies on properly pre-filtering the rainwater before it enters the storage reservoir.

- **First Stage in Properly Filtering Rainwater** - The Downspout Filter is installed at the base of the downspout ready to capture and remove a variety of debris that may be flushed into the system during a rain event. Incoming rainwater is passed through a series of mechanical filters that remove leaves, twigs, seeds, and small sediment that accumulate on the surface of the roof between rain events.

- Utilize our online **RainXchange® Calculator** to determine how many Downspout Filters your project will require.
- Add a downspout filter onto a water feature and use rainwater to top off the water level.
- Handles up to a **1,500 sq. ft. roof** and more than 50 gallons per minute flow rate.

(Unit Weight: 10 lbs.)
#30166 MSRP \$199.99

RainXchange Rain Barrel

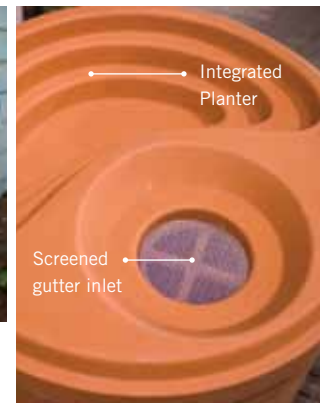

The RainXchange® Rain Barrel has a planter lid for flowers and the water harvested is healthier for your plants.

Features:

- Large 75-gallon capacity!
- 5-year warranty
- Requires no electricity
- Large safety overflow keeps water in the barrel or away from the house
- Lid can also be used as a planter
- Thick plastic walls are durable and will withstand extreme conditions
- Childproof lockable lid
- Brass spigot for garden hose connection
- Made in the U.S.A.

100 RainXchange® Systems

RainXchange® Systems

With our easy-to-use, prepackaged RainXchange® System Kits, you have the flexibility to choose the water storage size and decorative style that suits you! Simply follow the step-by-step selection chart to determine the products required to complete your RainXchange® System.

1 Choose the RainXchange® System Water Storage Kit

RainXchange® Water Storage Kits

Each RainXchange® Water Storage Kit Includes: AquaBlox®, 45 mil EPDM rubber liner membrane, and two panels of non-woven geotextile underlayment (one to surround the AquaBlox® and one to surround the exterior of the EPDM rubber liner).

500 Gallon Water Storage Kit

- Basin Size: 6' x 9' x 4'
- 16 - AquaBlox® - Single Stacked
- 15' x 20' Liner and Underlayment
- Pondless® Waterfall Vault Extension

(Unit Weight: 393 lbs.)
#30097 MSRP \$1,157.25

1,000 Gallon Water Storage Kit

- Basin Size: 6' x 9' x 5'
- 32 - AquaBlox® - Double Stacked
- 20' x 25' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

(Unit Weight: 690 lbs.)
#30099 MSRP \$2,381.99

1,500 Gallon Water Storage Kit

- Basin Size: 8' x 9' x 5'
- 48 - AquaBlox® - Double Stacked
- 25' x 25' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

(Unit Weight: 978 lbs.)
#30102 MSRP \$3,202.88

2,000 Gallon Water Storage Kit

- Basin Size: 9' x 11' x 5'
- 64 - AquaBlox® - Double Stacked
- 25' x 30' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

(Unit Weight: 1,245 lbs.)
#30105 MSRP \$4,023.77

2,500 Gallon Water Storage Kit

- Basin Size: 11' x 12' x 5'
- 80 - AquaBlox® - Double Stacked
- 25' x 30' Liner and Underlayment
- Four Pondless® Waterfall Vault Extensions

(Unit Weight: 1,510 lbs.)
#30108 MSRP \$4,609.54

3,000 Gallon Water Storage Kit

- Basin Size: 9' x 11' x 6'
- 96 - AquaBlox® - Triple Stacked
- 25' x 30' Liner and Underlayment
- Six Pondless® Waterfall Vault Extensions

(Unit Weight: 1,670 lbs.)
#30112 MSRP \$5,207.90

2 Choose Your Water Feature. A Decorative Fountain or A Pondless® Waterfall

Decorative Fountains

Select from a number of decorative bubbling urns and stone fountains from Step 3 that sit on top of the RainXchange® Water Storage System. The water spills over the top of the decorative piece and flows back down into the RainXchange® Water Storage System where it is re-circulated.

Decorative Fountain Pump and Vault Components

- Pondless® Waterfall Vault
- Downspout Filter (additional units may be purchased separately)
- AquaSurge® PRO 2000-4000 High Efficiency Pump
- Decorative Fountain Component Bag
- ¾" x 25' Kink-Free Pipe
- Overflow Kit

(Unit Weight: 129 lbs.)
#44000 MSRP \$972.83

or

Pondless® Waterfall

This water feature is made up of a waterfall or stream that flows and then disappears gracefully into the gravel.

Pondless® Waterfall Vault and Pump Components

- Pondless® Waterfall Vault
- Downspout Filter (additional units may be purchased separately)
- AquaSurge® PRO 2000-4000 High Efficiency Pump
- Pondless® Waterfall Check Valve
- Overflow Kit
- 10' x 20' Stream Liner
- 2" x 25' Flex PVC
- Installation Kit
- LED Lighting Package
 - Two - 1-Watt 12 Volt LED Waterfall Light
 - 60-Watt Transformer w/Photocell
 - 3-Way Splitter and 25' LVL Extension Cable

(Unit Weight: 126 lbs.)
#44001 MSRP \$1,596.44

Need Help with Your Design?

Utilize the RainXchange® Specification Calculator at www.rainxchange.com to determine the water storage requirements for your project

Water Supply Products

The RainXchange® System is an ideal partner for a wide range of irrigation solutions. From basic hand-watering through a garden hose or using it in combination with a professionally designed irrigation system, the flexibility of the RainXchange® System provides a sustainable water supply solution that will meet the requirements of your next project.

Aquascape offers several pump and plumbing options for general hand-watering and basic irrigation applications. We recommend consulting with Aquascape's Technical Service Department or a professional irrigation designer to determine the irrigation options that are best suited for your project.

Booster Pumps

A simple pumping solution that provides access to the water for general hand-watering and basic irrigation.

- The Booster Pump is designed to increase the water pressure for basic irrigation.
- Booster Pumps are external, non-submerged pumps.
- The Booster Pump fitting kit includes pipe and a number of fittings to plumb the system for basic irrigation supply.

Booster Pump

Booster Pump 1/4 HP (Unit Weight: 16.3 lbs.)
#30084 MSRP \$479.99

Booster Pump 1/2 HP (Unit Weight: 19.6 lbs.)
#30085 MSRP \$549.99

Pondless® Booster Fitting Kit (Unit Weight: 6 lbs.)
#30094 MSRP \$69.99

Decorative Booster Fitting Kit
(Unit Weight: 6 lbs.)
#30170 MSRP \$69.99

Booster Pump
Plumbing Kit

Rainxchange® Water Make-Up System

A simple solution for adding tap-water into the RainXchange® basin during low water levels ensuring a continuous supply of water. Can be attached to an outdoor spigot or professionally plumbed into a water supply line. This design meets local codes for high hazard connections by utilizing an air-gap to direct municipal make-up water through the water storage basin. Includes: Water Feed Float Switch (also sold separately), Irrigation Valve, 24-volt low-voltage transformer and low-voltage cable. Plumbing not included.

(Unit Weight: 3.5 lbs.)
#30390 MSRP \$99.99

Water Feed Float Switch

Specially designed doser-style float switch signals an irrigation valve to open and add tap water during low water levels in the RainXchange® storage basin. Located in the lower portion of the Snorkel™ Vault. Requires irrigation valve, transformer, and plumbing.

(Unit Weight: 1.2 lbs.)
#30386 MSRP \$39.99

Connection, Education, Inspiration...

CREATING SUSTAINABLE SOLUTIONS FOR THE WORLD-WIDE WATER CRISIS

More on
The Foundation

What is the Aquascope Foundation?

The Aquascope Foundation is a not for profit 501 3C organization established in 2008. The mission of The Foundation is to create sustainable solutions for the world-wide water crisis. The purpose of The Foundation is to promote awareness of water as our most precious resource through environmental, educational and philanthropic efforts. One of the ways that we will accomplish this mission is by utilizing the Aquascope RainXchange® System as a solution to bring clean drinking water to places where people currently have no access.

The Aquascope Foundation is utilizing its core technology to end this needless suffering. With this technology we can capture, purify and store thousands of gallons of rainwater, making it accessible and potable. Our technology will not only bring health and wellness to a community, but with an accessible water source, children can focus on education and adults can focus on employment. It's a smart and sustainable solution to a complex problem. ***Water is life!***

Get involved today!

Electronic
Solution to
String Algae

IonGen™
System

Don't Let **Algae** **Cramp** Your **Style!**

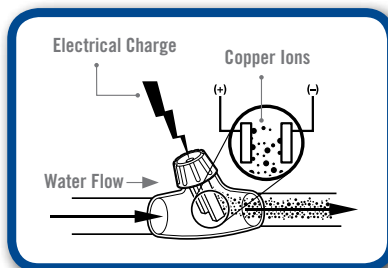

The IonGen™ System G2 Electronic Algae Controller allows you to spend your time relaxing next to your water feature instead of trying to maintain it!

- Drastically reduces pond maintenance caused by algae
- Helps reduce unsightly string algae
- Simple to install
- Compatible with water containing fish and plants
- Energy-efficient (less than \$1.00 per month in electricity)
- Unit Weight: 3.3 lbs.
- Item #95027 MSRP \$379.98

See pages 26-27 for more information on the IonGen™ System
